ACEN CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED INTERIM CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in Thousands, Except When Otherwise Indicated)

1. Corporate Information

ACEN CORPORATION, (“ACEN” or “the Parent Company”) incorporated on September 8, 1969 and registered with the Philippine Securities and Exchange Commission (“SEC”), is engaged in the business of, and/or investing in, electric power development and generation, retail electricity supply, and providing guarantees or similar security arrangements. The Parent Company is a licensed Retail Electricity Supplier (“RES”). As a RES, the Parent Company is allowed to supply electricity to the contestable market pursuant to the Electric Power Industry Reform Act (“EPIRA”). Other activities of the Parent Company include investing in various operating companies and financial instruments. ACEN and its subsidiaries are referred to as “the Group”.

The direct parent company (or intermediate parent company) of ACEN is AC Energy and Infrastructure Corporation (“ACEIC”), a wholly owned subsidiary of Ayala Corporation (“AC”). AC is a publicly listed company which is 47.53% owned by Mermac, Inc. (ultimate parent company), and the rest by the public. AC is a listed entity incorporated in the Philippines.

As at June 30, 2025 and December 31, 2024, ACEIC owns 58.23% of ACEN’s total outstanding shares of stock. This is based on direct and indirect ownership of ACEIC.

Amendment of Articles of Incorporation

On March 10, 2025, the Board of Directors (BOD) approved the following amendments of the Parent Company’s Articles of Incorporation:

- a. Second Article to expand the scope of the Parent Company’s investment business
- b. Seventh Article to increase the authorized capital stock (ACS) of the Parent Company from ₱48.40 billion to ₱58.40 billion and create additional common shares

On April 23, 2025, the proposed amendment was approved by the Parent Company’s stockholders during the annual stockholder meeting. On April 29, 2025, the Parent Company submitted its application for the amendment of its Articles of Incorporation to the SEC for pre-clearance review.

As of August 4, 2025, the application is still undergoing review of the SEC.

The accompanying unaudited interim condensed consolidated financial statements of ACEN and its subsidiaries (“the Group”) as at June 30, 2025, and for the six-month periods ended June 30, 2025 and 2024 have been prepared for inclusion in the prospectus in relation to a planned capital raising activity of ACEN, which was approved and authorized for issuance by the Parent Company’s Audit Committee (pursuant to the authority delegated by the Parent Company’s BOD) on August 4, 2025.

2. Material Accounting Policy Information

Basis of Preparation

The unaudited interim condensed consolidated financial statements as at June 30, 2025 and for the six-month periods ended June 30, 2025 and 2024 have been prepared on a historical cost basis, except for financial assets at fair value through profit or loss (FVTPL), equity instruments at fair value through other comprehensive income (FVOCI) and derivative financial instruments that have been measured at fair value.

The unaudited interim condensed consolidated financial statements are presented in Philippine peso which is the Parent Company's functional and presentation currency. All values are rounded to the nearest thousands ('000), except par values, per share amounts, number of shares and when otherwise indicated.

Statement of Compliance

The unaudited interim condensed consolidated financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*.

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at December 31, 2024.

The unaudited interim condensed consolidated financial statements have been prepared for inclusion in the prospectus in relation to a planned capital raising activity of ACEN.

Basis of Consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Group. For the six-month period ended June 30, 2025, the Parent Company's ownership in Negros Island Solar Power, Inc. ("ISLASOL") changed.

<i>Subsidiary</i>	Principal Activity	Percentage of Ownership (%)			
		June 30, 2025		December 31, 2024	
		Direct	Indirect	Direct	Indirect
ISLASOL	Solar power generation	14.04	85.96	–	60.00

The following are the significant transactions of the Group during the six-month period ended June 30, 2025:

ACEN's acquisition of shares of ISLASOL from Asian Energy Impact Trust Plc ("AEIT")

On March 6, 2025, ACEN executed a Share Purchase Agreement and Deed of Absolute Sale with AEIT, involving the sale by AEIT of 7,371 Redeemable Preferred Shares E ("RPS E") of ISLASOL in favor of ACEN with a total purchase price of ₱141.27 million. Upon the completion of the sale, subject to obtaining the requisite certificate authorizing registration from the Bureau of Internal Revenue, ACEN will acquire full ownership of ISLASOL (see Note 15). Simultaneous with ACEN's acquisition of shares from AEIT, ISLASOL redeemed 15,906 RPS E shares held by AEIT in ISLASOL with a total redemption price amounting to ₱488.73 million.

Omnibus Loan and Security Agreement for Giga Ace 6, Inc.'s (GA06) 345MW Quezon North Onshore Wind Power Project

On March 29, 2025, ACEN together with its wholly owned subsidiaries, ACEN Global Development Group, Inc. ("AGDGI", formerly ACE Endeavor, Inc.) and GA06 signed an Omnibus Loan and Security Agreement ("OLSA") with local banks for a senior secured green term loan facility of up to ₱34,410.00 million to partially finance GA06's 345MW Quezon North Onshore Wind Power Project located in the Municipalities of Mauban and Real, Quezon, Philippines and Municipalities of Paete and Kalayaan, Laguna, Philippines.

ACEN is the sponsor, share security grantor, guarantor and grantor. AGDGI is a sponsor, share security grantor, and grantor. GA06 is the borrower, mortgagor, and grantor.

As of June 30, 2025, there is no drawdown made from the facility.

ACEN Australia secures AU\$750.00 million financing

On April 10, 2025, ACEN Australia has completed a AU\$750.00 million portfolio debt financing to support its near-complete 520 MWdc (400 MWac) Stubbo Solar project in NSW and to refinance New England Solar Farm 1 (NESF1) project finance and outstanding corporate facilities. The transaction was supported by a group of 11 leading Australian and international lenders.

As of June 30, 2025, the proceeds from the portfolio debt financing totaling ₱12,928.12 million (AU\$373.00), including upfront costs amounting to ₱554.56 million (AU\$16million), were used to refinance New England Solar Farm 1 (NESF1) project finance amounting to ₱6,030.81 million (AU\$174.00 million), as well as two corporate loans amounting to ₱4,852.38 million (AU\$140.00 million) and ₱1,490.37 million (AU\$43.00 million), respectively. The amount drawn was partially hedged (80%) at an effective rate of 5.075% (see Note 13).

Stock Rights Offering ("SRO")

On April 23, 2025, the BOD of ACEN approved the offer and issuance of primary common shares by way of a stock rights offer to eligible stockholders.

On May 30, 2025, ACEN submitted a request for confirmation of exempt transaction to the Securities and Exchange Commission and listing application to the Philippine Stock Exchange (PSE).

On July 7, 2025, ACEN received SEC's confirmation of exempt transaction for the SRO (see Note 15).

Investment in CI GMF II Camarines Sur Offshore Wind Energy Corporation

On May 28, 2025, ACEN signed the definitive agreement with Copenhagen Infrastructure Partners' ("CIP") Growth Markets Fund II to acquire a 25% minority stake in the latter's proposed offshore wind energy project located along the shores of San Miguel Bay in Camarines Sur and Camarines Norte ("San Miguel Bay Project") with a potential installed capacity of up to 1 GW. This was executed through a Share Purchase and Loan Assignment Agreement with CI NMF PHILIPPINES C.V., as the seller, and CI GMF II COOPERATIEF U.A., as the loan assignor. The common shares representing 25% ownership will be purchased in two tranches of 29,500 and 200,000 shares, respectively.

On June 23, 2025, ACEN signed a Deed of Absolute Sale of Shares of Stock with CI NMF Philippines C.V. for the acquisition by ACEN of the tranche 1 shares of 29,500 Common Shares of stock of CI GMF II Camarines Sur Offshore Wind Energy Corporation ("CI GMF"), the holding Company of CI NMF I (PH) Corp ("CI NMF"), for a total consideration of ₱2.95 million (US\$0.05 million). ACEN

also paid ₱89.04 million (US\$1.55 million) representing its installment for the tranche 2 shares (*see Note 6*).

The principal place of business and country of incorporation of CI GMF and CI NMF is in the Philippines. CI NMF is the special purpose vehicle for the development and operation of the San Miguel Bay Project.

On the same date, ACEN and CI GMF II COOPERATIEF U.A, executed a Deed of Assignment on the loan of CI NMF with principal and accrued interest amounting to ₱401.02 million (US\$ 7.11 million) representing 25% of the total indebtedness for a total consideration of ₱374.20 million (US\$ 6.63 million). Other income earned from the loan assignment amounted to ₱27.19 million (US\$ 0.48 million) (*see Note 20*).

As of June 30, 2025, the carrying value of the assigned loan and interest amounted to ₱383.97 million and ₱18.87 million, respectively, For the six-month period ended June 30, 2025, interest income earned amounted to ₱611.20 million (*see Note 22*).

Exercise of Step-in Rights and Restructuring in NEFIN

On May 29, 2025, ACEN Renewables International Pte. Ltd. (“ACRI”) issued a formal notice to the shareholders of NEFIN Limited and NEFIN Asset Management Pte. Ltd. (collectively referred as “NEFIN”) to exercise its Step-in Rights, following NEFIN’s failure to pay dividends on the Redeemable Preference Shares (“RPS”) for at least four consecutive six-month periods, as required under the Shareholder’s Agreement.

The Step-in Rights allow ACRI to take certain actions, such as providing additional capital or operational expenditures, and making changes to NEFIN’s management team, to improve the performance of the existing projects.

On June 11, 2025, as part of the broader restructuring exercise of the NEFIN platform of which the Step-In Rights form a component, ACRI and Canis Majoris Holding Limited (“CML”), the original holding entity of 50% of the common shares of NEFIN Limited, executed a series of Shareholder Purchase Agreements (“SPA”). These agreements effected the following post-transaction shareholding structure in NEFIN Limited:

- ACRI’s ownership of 50% of the common shares;
- ACRI’s retention of 100% of the ACRI Redeemable Preference Shares (RPS);
- ACEN C&I HK Limited (“ACEN C&I”)’s ownership of the remaining 50% of the common shares, having acquired CML’s original stake; and,
- ACEN C&I’s ownership of 100% of the CML RPS.

ACEN C&I is a joint venture between ACEN HK Investments and ACEN-Silverwolf Pte., the latter being a joint venture between ACRI and Silverwolf Capital Ltd.

Following this restructuring, CML has fully divested its position in the NEFIN platform, and accordingly, the Step-In Rights ceased to be effective as of the SPA execution date. Operational oversight of the NEFIN platform will be undertaken by the Silverwolf management team.

As of June 30, 2025, Management has assessed that it does not exercise control over NEFIN Limited, as defined under IFRS 10, Consolidated Financial Statements, under the restructured arrangements. Consequently, the NEFIN holdings will not be consolidated into the ACRI Group's financial statements.

Sale of the Group's diesel plant companies to ACEIC

On June 16, 2025, ACEN's Executive Committee, acting on authority delegated by the Board, approved the sale to ACEIC, ACEN's majority shareholder, of its 100% ownership interests in the following special purpose companies owning the Group's diesel plants:

1. Bulacan Power Generation Corporation - 52MW diesel plant (Norzagaray, Bulacan)
2. One Subic Power Generation Corporation - 116MW diesel plant (Subic Freeport)
3. CIP II Power Corporation - 21MW diesel plant (Bacnotan, La Union)

The completion of the divestment is subject to the satisfaction of agreed conditions precedent and the execution of definitive documentation. The divestment will be implemented via a sale to ACEIC of the Group's outstanding common shares in the aforementioned special purpose companies. The divestment will ensure that the Group achieves its goal of reaching 100% renewable energy generation by end-2025.

New Standards, Interpretations and Amendments

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those of the previous financial year, except for the adoption of amendments effective as at January 1, 2025. The adoption of the new standard did not have an impact on the unaudited interim condensed consolidated financial statements of the Group.

Effective beginning on or after January 1, 2025

- Amendments to PAS 21, *Lack of exchangeability*

3. Significant Accounting Judgment, Estimates and Assumptions

The preparation of the unaudited interim condensed consolidated financial statements in conformity with PFRS Accounting Standards requires management to make estimates and assumptions that affect the amounts reported in the unaudited interim condensed consolidated financial statements and accompanying notes. The estimates and assumptions used in the unaudited interim condensed consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the unaudited interim condensed consolidated financial statements. Actual results could differ from such estimates.

Except as otherwise stated, the significant accounting policies, judgements, estimates and assumptions used in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those used in the annual consolidated financial statements as at and for the year ended December 31, 2024.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the unaudited interim condensed consolidated financial statements:

Accounting for Long Term Energy Service Agreements (LTESA)

The Group, through ACEN Australia, entered into LTESA with New South Wales (NSW) Australian Government that gives the generator the right, but not the obligation, to enter into a strip of two-year electricity swap contracts ("Swaptions").

- 6 -

In 2024, LTESA contract was designated as hedging instrument because of the following:

- a. It is previously assessed as derivative that is measured at fair value through profit or loss
- b. It was not a written option at the inception on the basis that the fair value of the LTESA contract at inception is in a significant asset position.

LTESA meet the definition of a derivative instrument as their value changes with reference to changes in the Australia's National Electricity Market (NEM) spot price of energy, no upfront cost to enter into the contract and the value of the contracts will be settled in the future (see Notes 11 and 14).

The Group uses commodity options derivative financial instruments to hedge its commodity price risks. Potential sources of hedge ineffectiveness in the hedging relationship were as follows:

- a. Credit risk
- b. Fixed price CPI escalation
- c. Changes in generation forecast
- d. Annual payment cap
- e. Clawback mechanism

In the event the swaptions are not exercised, the net profit or loss impact will be a non-cash item given no exchange of cash occurred at inception and will occur over the life of the arrangement.

The Group also assessed the transaction is accounted as government grant since the LTESA was granted by the NSW Australian Government to support its initiative on promoting renewable energy and providing long-term revenue certainty for investors and developers of clean energy projects through the electricity swap contracts.

Assessment of Joint Control over Joint Ventures

The Group's investments in joint ventures are structured in separate incorporated entities (see Note 6). The investments in ACEHI Netherlands B.V. (ACEHI Netherlands), PhilWind, NLR, UPC Power Solutions LLC (UPC Power), BIM Renewable Energy Joint Stock Company (BIMRE), Monsoon Wind B.V. (Monsoon Wind), Paivatar Energy Corporation (Paivatar), BIM Wind Energy Joint Stock Company (BIM Wind), BIM Energy Joint Stock Company (BIME JSC), Unlimited Renewables Holdings, B.V. (URH) and CI GMF II Camarines Offshore Wind Energy Corporation (CI GMF) are accounted for as investments in joint venture since the fundamental business and operational matters requires unanimous consent from all parties (see Note 6).

Even though the Group holds various percentage of ownership in interests on these arrangements, their respective joint arrangement agreement requires unanimous consent from all parties to the agreement for the relevant activities identifies. In addition, the Group considers the number of its Board seats in its incorporated entity. Further, the Group and the parties to the agreement only have rights to the net assets of the joint venture through the term of the contractual agreements. Considering these factors, management assessed that it has joint control over the entity.

Determination of Transaction Price from Sale of Electricity

The adjustment of the FIT rate for the delivered energy is a variable consideration which shall be accounted for in the period in which the transaction price changed. In 2020, the Group recognized additional revenue and long-term receivables computed on the FIT rate increment which will be recovered for a period of five years starting January 1, 2021. For the six-month periods ended

- 7 -

June 30, 2025 and 2024, and since 2021, while waiting for the approval of the 2021 FIT rates, management assessed that the approved 2020 FIT rates represent the best estimate of the transaction price the Group will be entitled to in exchange of the delivered energy.

Non-Impairment of Vietnam Receivables

In March 2025, Vietnam Electricity (EVN) applied a reduced tariff to the January 2025 and subsequent invoices, despite previous invoices being based on the original Feed-in Tariff (FIT). No formal guidance or justification has been issued by the Ministry of Industry and Trade (MOIT), Prime Minister's Office, or other authorities regarding the application of the reduced tariff, other than meetings held by the Government of Vietnam with renewable energy (RE) investors where the matter of belated issuance of Completion Certificate Acceptance for RE projects was raised as an issue. In late June 2025, The Deputy Prime Minister tasked the MOIT to review FIT eligibility for each project, including legal and financial implications of EVN's temporary FIT payment and claw back options.

These developments have resulted in invoice settlement delays for some solar projects partially owned by the Group.

As of June 30, 2025, the Group assessed that despite the challenges outlined above, there is unlikely to be material impairment and the issues are expected to be resolved in a way that protects investor interests.

Non-recording of Refund Liability

Giga Ace 4, Inc. ("Alaminos BESS") and Ingrid Power Holdings, Inc. ("Ingrid") participated in the Competitive Selection Process of the National Grid Corporation of the Philippines (NGCP) for the procurement of ancillary services. Ingrid, a 150MW diesel plant and a 50-50 joint venture between ACEN and Marubeni Asian Power Philippines Corporation (MAPCC, formerly Axia Power Holdings Corporation), received provisional authority from the ERC to implement the Ancillary Services Procurement Agreement ("ASPA") with NGCP at a rate of ₱4.19/kWh while Alaminos BESS, a 40MW battery storage and a wholly-owned plant of ACEN, was granted a provisional rate of ₱0.9581/kWh.

On May 2, 2025, the ERC published a Notice of Commission Action (NCA) on its social media pages and website where it mentioned that Ingrid and Alaminos BESS had been granted final approval for their ASPA at a final rate of ₱0.4875/kWh and ₱0.3088/kWh (for Regulating Reserve), respectively. Assuming these published rates become final and executory, Ingrid and Alaminos BESS are expected to be ordered to refund the difference between the provisional and final rates from the start of delivery on June 8, 2024 and November 26, 2023, respectively.

As of June 30, 2025, no provisions for refund of ASPA revenues were recorded as the following criteria were not met:

- a) a present obligation (legal or constructive) has arisen as a result of a past event (the obligating event),
- b) payment is probable ('more likely than not'), and;
- c) the amount can be estimated reliably.

In addition, as of June 30, 2025, both companies continue to receive the ASPA collection payment from NGCP based on the provisional rates.

On July 24, 2025, Ingrid received via email a copy of the Decision of the ERC dated April 23, 2025. It confirmed the earlier published final rate of ₱0.4875/kWh.

On July 28, 2025 Alaminos BESS received the ERC's Decision on its Application for Approval of ASPA. The decision confirmed the validity of the ASPA but reduced the capacity fee rates from the provisional rate of ₱0.9581/kWh to the final rate of ₱0.3088/kWh.

In both decision, the ERC ordered NGCP to compute, and upon ERC's approval, collect the respective difference between the rates from Ingrid and Alaminos BESS from the time they commenced delivery.

Ingrid and Alaminos BESS will exhaust all legal remedies, including a Motion for Reconsideration or an appeal to the Court of Appeals and/or Supreme Court, to question the legality and propriety of the ERC's decision on the ASPA final rates.

These actions may materially affect the outcome and timing of any refund obligation. Booking a provision prematurely may misrepresent the financial position of Ingrid and its shareholders, especially given the potential for legal relief under the ASPA.

Non-Classification to Noncurrent Asset Held for Sale

As of June 30, 2025, the Group assessed that the Diesel Plants approved for sale to ACEIC do not qualify as Noncurrent Assets Held for Sale. The Diesel Plants did not meet all the criteria for the held-for-sale classification under PFRS 5. While the sale of diesel plants is highly probable and qualifies for recognition as a completed sale, the diesel plants are not yet available for immediate sale in their current condition.

The Group's assessments of the held for sale criteria are as follows:

- a) The sale of diesel plants is highly probable as ACEN is committed to sell the Diesel Plants and has already identified ACEIC as the qualified buyer;
- b) The sale also qualified for recognition as a completed sale which will result in loss of control and deconsolidation of the diesel plants. ACEN does not plan to abandon its investment in these diesel plants and plan to divest it through sale, however;
- c) The Diesel Plants are not yet available for immediate sale in their present condition as the agreed conditions precedent have not yet been satisfied and the execution of definitive documentation containing the final terms and other details of the sale has not yet been completed.

Impairment of UPC Wind Projects

In June 2025, UPC Wind Projects, comprising Lac Hoa (30MW) and Hoa Dong (30MW) wind farm projects, reached an agreement with EVN on the final tariff of the project amounting to VND1,579/kWh, which is higher than the provisional tariff of VND 793/kWh applied when operations commenced in Q1 2024.

Both projects had missed the Feed-in Tariff (FIT) deadline in October 2021 due to pandemic-related delays and inspection issues, causing Commercial Operation Date (COD) recognition in December 2023 and operational start in early 2024.

The Group identified impairment indicators for the UPC Wind Projects, including the lower final tariff relative to the investment case, operational delays, and updated assumptions such as increased maintenance and insurance costs.

As a result, for the six-month period ended June 30, 2025, the Group recorded additional allowance for expected credit losses for its Vietnam Projects amounting to ₱3,520.89 million (US\$62.26 million). As of June 30, 2025, total allowance for expected credit losses amounted to ₱6,688.74 million (US\$118.69 million) (*see Note 5*). Post allowance, the carrying value of instruments related to UPC

Wind Projects amounts to ₱4,332.01 million (US\$77.01 million), which is expected to generate an internal rate of return of 10.3%.

Management's Use of Estimates

The key assumptions concerning the future and other sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Fair Value Measurement of Commodity Options

In the estimation of fair value of the LTESA Swaptions, a commodity option hedge instrument, the Group used option pricing techniques which resulted in a Day 1 derivative asset, even if no premium was paid (see Note 11).

Measurement of Expected Credit Losses

At each reporting date, the Group assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis. An exposure will migrate through the ECL stages as asset quality deteriorates. If in a subsequent period, asset quality improves and any previously assessed significant increase in credit risk also reverses since origination, then the loss allowance measurement reverts from lifetime ECL to 12-month ECL.

As at June 30, 2025 and December 31, 2024, the Group assessed that for its financial assets such as cash and cash equivalents, there has been no SICR since origination and is assessed as low credit risk based on published information of comparable entities. For trade receivables, the Group used provision matrix in estimating its ECL. A broad range of forward-looking information were considered as economic inputs, such as GDP growth, inflation rates, unemployment rates, interest rates and BSP statistical indicators. The inputs and models used for calculating ECL may not always capture all characteristics of the market at the reporting date. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material. While these model inputs including forward-looking information are revised, the ECL models, and definitions of default remain consistent with prior periods (see Notes 5 and 7).

Fair Value Measurement of Financial Assets at FVTPL and FVOCI

In the estimation of fair value of investments recorded as financial assets at FVTPL and FVOCI, management needs to determine the appropriate techniques and inputs for fair value measurements. The Group uses the discounted cash flow technique for unquoted instruments, published net asset value (NAV) for investments in Unit Investment Trust Funds (UITFs) and quoted prices for publicly traded shares in estimating the fair value of the financial assets at FVTPL and FVOCI.

Impairment Assessment of Non-financial Assets

The Group reviews investments in associates and joint venture, investment properties, property, plant and equipment, right-of-use assets, and intangible assets for impairment of value. Impairment for goodwill is assessed at least annually. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in assets' market value, obsolescence or

- 10 -

physical damage of an asset, significant underperformance relative to expected historical or projected future operating results and significant negative industry or economic trends.

The Group has evaluated the conditions and the assets subject to impairment to assess whether any impairment triggers that may lead to impairment have been identified. In doing this, the Group has reviewed the key assumptions in its previous annual impairment assessment to assess whether any changes to the assumptions within that impairment assessment would result in an impairment loss as at June 30, 2025. Based on the Group's review of key assumptions, management has assessed that there were no significant changes in the assumptions used and therefore no impairment losses were recognized in 2025 and 2024 (see Notes 6, 8, 9 and 11).

Recognition of Deferred Tax Assets

The Group reviewed its business and operations including its estimated impact on macroeconomic environment, the market outlook and the Group's operations. As such, the Group assessed its ability to generate sufficient taxable income in the future that will allow realization of net deferred tax assets.

As a result, the carrying amount of deferred tax assets is reduced to the extent that the related tax assets cannot be utilized due to insufficient taxable profit against which the deferred tax assets will be applied. The Group assessed that sufficient taxable profit will be generated to allow all or part of the deferred tax assets to be utilized in the future (see Note 21).

Assessment of Contingencies

The Group is currently involved in various legal proceedings and assessments for local and national taxes (see Note 28). The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the defense in these matters and is based upon an analysis of potential results. The final settlement of these may result in material adverse impact on the Group's consolidated financial statements. The Group also invokes limited disclosures on certain matters due to their prejudicial nature.

4. Cash and Cash Equivalents

This account consists of:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Cash on hand and in banks	₱6,007,700	₱6,603,902
Cash equivalents	18,083,591	18,554,456
	₱24,091,291	₱25,158,358

Interest income earned on cash and cash equivalents amounted to ₱374.45 million and ₱536.39 million for the six-month periods ended June 30, 2025 and 2024, respectively (see Note 20).

5. Accounts and Notes Receivable

Bridge financing (previously referred to as debt replacement)

Bridge financing facilities are provided to related parties to fund investment requirements for renewable power plants while under construction and undergoing implementation or release of project financing from financial institutions (see Note 22).

Bridge financing loans bear interest ranging from 7.00% to 15.00% per annum.

Extension of Omnibus Agreement for Arayat Phase 1 and 2

The Group, Citicore Solar Energy Corporation (CSEC), ACEN Global Development Group Inc. (AGDGI, formerly ACE Endeavor, Inc.) and Greencore 3 entered into an interest-bearing Omnibus Agreement to finance a 50MW (Arayat Phase 1) and a 30MW (Arayat Phase 2) solar power plants in Mexico, Pampanga.

On May 26, 2025, the Omnibus Agreement was amended to extend the maturity date from March 31, 2025 to June 30, 2025.

- 13 -

On June 4, 2025, and July 16, 2025, the Board of Directors of ACEN and Greencore 3, respectively, approved to further extend the maturity date of the Omnibus Agreement from June 30, 2025, to December 31, 2025.

As of June 30, 2025 and December 31, 2024, the outstanding bridge loan for Arayat Phase 1 amounted to ₱2,700.30 million.

As of June 30, 2025 and December 31, 2024, the outstanding bridge loan for Arayat Phase 2 amounted to ₱1,958.78 million.

Development Loans

Development loan facilities are provided to related parties to fund the development of renewable power plant projects.

Development loans bear interest ranging from 4.00% to 13.09% per annum.

Other Loans

Other loans receivable from third parties include long term loan receivables for land acquisitions. These are interest bearing and mature 1-2 years after drawdown.

Other loans bear interest ranging from 3.00% to 13.00% per annum.

Accrued interest receivable

This account consists of:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)

Current portion	₱7,397,671	₱5,505,240

- 14 -

Allowance for expected credit loss (ECL)

In determining the ECL, the Group has taken into account the historical default experience, the financial position of the counterparties, as well as the future prospects of the industries in which the issuers of these debt instruments operate, in assessing if there is a significant increase in credit risk, as well as estimating the probability of default of each of these financial assets occurring within their respective loss assessment time horizon, and the loss upon default in each case.

For the six-month period ended June 30, 2025, the Group recognized the following additional allowance for expected credit losses:

1. US\$0.04 million (P2.14 million) on principal from development loan with UPC-ACE Solar;
2. US\$0.92 million (P52.35 million) on accrued interest receivable of development loan with UPC-ACE Solar;
3. US\$5.12 million (P288.40 million) on principal from bridge financing to Vietnam Wind Energy Limited (Vietnam Wind);
4. US\$14.10 million (P804.68 million) on accrued interest receivable of investment in convertible loans and of bridge financing with Vietnam Wind) (see Note 7);
5. US\$24.94 million (P1,406.81 million) on principal from bridge financing with Lac Hoa (under Vietnam Wind);
6. US\$18.10 million (P1,021.00 million) on principal from bridge financing with Hoa Dong (under Vietnam Wind);
7. P0.09 million reversal of impairment on HDP Bulk Water accounts receivable.

Total additional allowance for expected credit losses for the six-month period ended June 30, 2025 amounted to US\$63.22 million (P3,575.29 million) (see Note 18).

For the six-month period ended June 30, 2024, the Group recognized the following additional allowance for expected credit losses:

1. US\$1.00 million (P56.72 million) on principal from development loan with UPC-ACE Solar;
2. US\$0.91 million (P51.61 million) on accrued interest of development loan with UPC-ACE Solar); and
3. US\$0.65 million (P36.70 million) on accrued interest of investment in redeemable preferred shares in UPC-ACE Solar (see Note 7); and
4. US\$7.51 million (P426.65 million) on accrued interest receivable of investment in convertible loan to Vietnam Wind (see Note 7).

Total additional allowance for expected credit losses for the six-month period ended June 30, 2024 amounted to US\$10.07 million (P571.68 million).

The aging analysis of accounts and notes receivable are as follows:

	June 30, 2025 (Unaudited)						Total

Cumulative translation adjustment	148,990	—	148,990
Balances at end of year	₱15,980,307	₱—	₱15,980,307

Convertible loans

The roll forward analysis of this account follows:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Balance at beginning of period	₱3,961,067	₱3,882,716
Cumulative translation adjustment	(48,406)	78,351
	3,912,661	3,961,067
Allowance for impairment (Note 18)	2,112,850	2,112,850
Balance at end of period	₱1,799,811	₱1,848,217

For the six-month periods ended June 30, 2025 and 2024, there were no additions or redemptions in investment in convertible loans.

Allowance for expected credit losses (ECL)

In determining the ECL, the Group has taken into account the historical default experience, the financial position of the counterparties, as well as the future prospects of the industries in which the issuers of these debt instruments operate, in assessing if there is a significant increase in credit risk, as well as estimating the probability of default of each of these financial assets occurring within their respective loss assessment time horizon, and the loss upon default in each case.

For the six-month period ended June 30, 2024, the Group recognized reversal of allowance for impairment loss of US\$0.66 million (₱37.40 million) (nil in 2025) (see Note 18).

Investments in redeemable preferred shares and convertible loans bear interest ranging from 9.0% to 14.0% per annum and 8.80% to 14.00% per annum for both the six-month periods ended June 30, 2025 and 2024, respectively.

- 20 -

Interest income

The Group earns interest income from its investments in redeemable preferred shares and convertible loans amounting to (see Note 20):

	Three-Month Period Ended June 30 (Unaudited)		Six-Month Period Ended June 30 (Unaudited)	
	2025	2024	2025	2024

	₱655,166	₱772,433	₱1,328,980	₱1,565,766

8. Property, Plant and Equipment

As at June 30, 2025 and December 31, 2024, the carrying value of the property, plant and equipment of the Group amounted to ₱132,767.53 million and ₱121,852.46 million, respectively.

The Group invested significant capital expenditures to the following projects amounting to ₱6,734.50 million and ₱22,333.58 million for the six-month periods ended June 30, 2025 and 2024, respectively.

Project	Capacity (MW)	Location	% Completion	
			June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Pangasinan Solar	60	Pangasinan, Philippines	99.5%	99.5%
Palauig 2 Solar	300	Zambales, Philippines	91%*	84%*
Quezon North Wind (1 and 2)	553	Real and Mauban, Quezon, Philippines	12%	-
San Marcelino Solar (Phase 3)	200	Zambales, Philippines	7%	5%
Stubbo Solar	520	Central Western Tablelands, New South Wales, Australia	99%	91%
New England BESS	200	Uralla, New South Wales, Australia	29%	8%

*Excluding transmission line with completion of 58% and 55% as of June 30, 2025 and December 31, 2024

Unpaid Property, Plant and Equipment

As at June 30, 2025 and December 31, 2024, unpaid property, plant and equipment acquisitions amounted to ₱475.32 million and ₱1,006.93 million, respectively (see Note 27).

Borrowing Cost Capitalized

Borrowing cost capitalized to property, plant, and equipment for the six-month periods ended June 30, 2025 and 2024 amounted to ₱1,364.24 million and ₱1,409.29 million, respectively (see Note 19). The capitalization rate used to determine the borrowing cost eligible for capitalization is 5.50% and 5.32% in 2025 and 2024, respectively.

Mortgaged Property, Plant and Equipment

NorthWind's Land, Wind Turbine Generator, Building and Machinery with carrying value of ₱1,623.67 million and ₱1,686.80 million as at June 30, 2025 and December 31, 2024, respectively, included under "Machinery and Equipment" account is mortgaged as security for a long-term loan (see Note 13).

Guimaras Wind's wind farm with carrying value of ₱3,153.18 million and ₱3,274.29 million as at June 30, 2025 and December 31, 2024, respectively, included under "Machinery and Equipment" account is mortgaged as security for a long-term loan (see Note 13).

MONTESOL's solar power plant with a carrying value of ₱779.86 million and ₱803.50 million as at June 30, 2025 and December 31, 2024, respectively, included under "Buildings and Improvements" and "Machinery and Equipment" account is mortgaged as security for a long-term loan (see Note 13).

SACASOL's solar power plant with a carrying value of ₱2,270.75 million and ₱2,346.19 million as at June 30, 2025 and December 31, 2024, respectively, included under "Buildings and Improvements" and "Machinery and Equipment" account is mortgaged as security for a long-term loan (see Note 13).

Disposals

For the six-month periods ended June 30, 2025 and 2024, the Group sold equipment with a net carrying amount of ₱9.70 million and ₱13.49 million for a cash consideration of ₱9.76 million and ₱20.73 million, respectively. The net gains on these disposals were recorded under "Other income-net" (see Note 20).

Depreciation

Total depreciation charged to operations amounted to ₱1,357.76 million and ₱484.18 million for the six-month periods ended June 30, 2025 and 2024, respectively. The amount charged to "General and administrative expenses" account amounted to ₱215.37 million and ₱287.18 million, respectively (see Notes 17 and 18).

Provision for Impairment loss

For the six-month periods ended June 30, 2025 and 2024, the Group recognized provision for impairment on property, plant and equipment amounting to ₱9.90 million and ₱0.26 million, respectively (see Note 18).

Other Matters

The Group has no significant property, plant and equipment which are temporarily idle as at June 30, 2025 and 2024.

9. Right-of-Use Assets and Lease Liabilities

The roll forward of these accounts follows:

	June 30, 2025 (Unaudited)

Remeasurements

On August 8, 2023, the Group entered into Renewable Energy Contract Area Utilization Agreements (RECA) with the Laguna Lake Development Authority (LLDA) for the development of floating solar projects.

On May 28, 2025, the Group requested and was granted approval by the LLDA Board to defer lease-related payments without penalty due to delays in the procurement timeline under the Department of Energy's Green Energy Auction Program Round 4 (GEAP-4).

As of June 30, 2025, the Group has remeasured the lease liability and right-of-use asset amounting to ₱74,241.87 million to reflect the revised payment schedule and the deferral of the settlement of the 2nd tranche and final tranche of the possessory rights to 1st quarter of 2026 and August 8, 2026, respectively. No gain or loss was recognized.

Depreciation and amortization

Total amortization charged to operations for the six-month periods ended June 30, 2025 and 2024 amounted to ₱58.54 million and ₱49.59 million, respectively (see Note 17).

The amount charged to “General and administrative expenses” account for the six-month periods ended June 30, 2025 and 2024 amounted to ₱138.37 million and ₱99.19 million, respectively (see Note 18).

Interest expense

Total interest expense recognized on lease liabilities for the six-month periods ended June 30, 2025 and 2024 amounted to ₱207.48 million and ₱140.07 million, respectively (see Note 19).

10. Goodwill and Other Intangible Assets

The rollforward of this account follows:

	June 30, 2025 (Unaudited)				
	Goodwill	Deferred Exploration Costs	Leasehold and Water Rights	Other Intangible Assets	Total
Cost:					
Balance at beginning of period	₱23,459,100	₱140,411	₱185,347	₱2,685,406	₱26,470,264

Balance at beginning and end of year	—	86,061	—	—	86,061
Net book value	₱23,459,100	₱54,350	₱120,063	₱1,965,492	₱25,599,005

For the six-month periods ended June 30, 2025 and 2024, total additions in Goodwill and Intangible Assets amounted to ₱300.58 million and ₱66.37 million, respectively.

- 24 -

Total amortization charged to operations for the six-month periods ended June 30, 2025 and 2024 amounted to ₱79.86 million (see Note 17).

The amount charged to “General and administrative expenses” account for the six-month period ended June 30, 2025 amounted to ₱8.01 million while for the six-month period ended June 30, 2024 the reversal of amortization amounted to ₱0.13 million (see Note 18).

Other Intangible Assets

Intangible assets amounting to ₱2,191.81 million, arising from an identifiable Feed-in-Tariff (FIT) contract with a remaining life of 13 years, were recognized from the acquisition of SACASOL in 2020. These assets are amortized on a straight-line basis over their remaining life from 2020. The carrying amounts as of June 30, 2025, and December 31, 2024, were ₱1,388.09 million and ₱1,471.90 million, respectively.

11. Other Assets

Other current assets

This account consists of:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Prepaid expenses	₱1,180,985	₱722,209
Advances to suppliers and contractors	362,006	369,283
Derivative asset	194,107	157,662
Short-term investments	–	161,966
Other current assets	2,425	108
	1,739,523	1,411,228
Less allowance for impairment loss (Note 18)	33,861	34,307
	₱1,705,662	₱1,376,921

Prepaid expenses largely pertain to software subscription, maintenance, prepaid taxes and other prepaid services. This also includes loan upfront fees to be amortized upon loan drawdown.

Short-term investments include time deposit that have maturity of more than 90 days for the period ended. The short-term investments matured on March 7, 2025. Interest income earned on short-term investments for the six-month period ended June 30, 2025 amounted to ₱2.05 million (nil in 2024) (see Note 20).

For the six-month periods ended June 30, 2025 and 2024, the Group recognized reversal of provision for impairment loss on other current assets amounting to ₱0.45 million and provision for impairment loss on ₱1.99 million, respectively (see Note 18).

- 25 -

Other noncurrent assets

This account consists of:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Advances to suppliers and contractors	₱6,099,929	₱5,651,193
Derivative assets (Note 24)	4,668,679	4,394,107
Advances for land acquisition	3,680,830	2,015,292
Development costs	840,133	646,410
Others	351,485	343,737
	₱15,641,056	₱13,050,739

Advances to suppliers and contractors

Advances to suppliers and contractors represent payments made to suppliers and contractors for goods and services that have not yet been received or completed. These advances are typically made to ensure the timely delivery of materials and services necessary for projects under construction.

Derivative assets

ACEN Australia has secured 20-year Long Term Energy Supply Agreements (LTESA) for its solar projects in New South Wales (NSW) through the government's first renewable energy and storage auction. These agreements cover the 720 MW New England Solar Project (NESF 1 and NESF 2) and the 400 MW Stubbo Solar Project. The LTESA grants the generator the option to engage in two-year electricity swap contracts from July 1, 2026, to June 30, 2047, known as "Swaptions." If exercised, the swap settles based on the difference between the LTESA fixed price and the National Electricity Market (NEM) spot rate for each MWh of energy produced.

The contract includes ten consecutive Swaptions, each providing a two-year swap if exercised. Swaptions must be activated within a 6-12 month window before the swap's effective date. If not exercised, no cash exchanges occur, and a clawback mechanism initiates if the Scheme Financial Vehicle (SFV) has been the net payer under LTESA and the dispatch-weighted average price exceeds its threshold. NESF or Stubbo must repay SFV an amount capped at sums previously received during the Swaption period. LTESA maturity dates are June 30, 2046, for NESF, and June 30, 2047, for Stubbo.

Advances for land acquisition

Advances for land acquisition pertain to partial payments to landowners and service providers related to the acquisition of various property for future renewable projects. For the six-month period ended June 30, 2025, additions to advances for land acquisition amounted to ₱1,665.54 million (nil in 2024).

Development costs

Development costs include expenditures related to the development phase of renewable power plant projects. These include direct expenses that will be reclassified as part of property, plant and equipment upon achievement of certain milestones (e.g. start of construction). These costs are not depreciated or amortized until such time as the relevant assets are completed and available for use.

12. Accounts Payable and Other Current Liabilities

This account consists of:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Accrued expenses	₱2,961,517	₱3,433,122
Trade payables	2,145,978	2,451,894
Due to related parties (Note 22)	3,013,852	2,469,137
Nontrade payables	1,755,076	2,886,668
Accrued interest expenses	1,470,282	1,527,809
Output VAT - net	763,813	828,215
Retention payable	452,069	454,413
Derivative liability	204,946	40,308

ACEN International, Inc

On May 9, 2025, ACEN International signed a term loan facility worth EUR 50.00 million with a foreign bank, to be used to finance and/or refinance investment in and/or advances to existing and future renewable energy projects through its subsidiaries and joint ventures, and for general corporate purposes.

As of June 30, 2025, ₱1,577.40 million (EUR 25.00 million) has been drawn from the facility.

ACEN Australia

As of June 30, 2025 and December 31, 2024, ACEN Australia loans drawn from revolving long-term facilities are required to be rolled over as the interest period of each loan mature. This rollover process is expected to continue until the maturity of the facility agreement. Each drawdown is considered a “new loan” under the facility. Based on the facility agreements, rollover period may range from three to six months or any other period greater than one month as agreed between the Borrower and the Agent or Lender.

To determine the date of rollover for each maturing loan, ACEN Australia targets to 1) align the rollover dates to other maturing loans within the same facility; 2) stagger the maturing dates across the facilities to manage liquidity and timing of interest payments; and 3) ensure that the rollover complies with the facility agreements Interest Periods requirements.

- 57 -

Debt Issue Cost

For the six-month periods ended June 30, 2025 and 2024, total amortization of debt issue cost on long-term loans amounted to ₱63.24 million and ₱26.79 million, respectively (see Note 19).

Interest expense

Total interest expense recognized on long-term loans for the six-month periods ended June 30, 2025 and 2024 amounted to ₱2,351.11 million and ₱1,395.55 million, respectively (see Note 19).

Compliance with covenants

The Group has complied with the covenants required by the long-term loans as at June 30, 2025 and December 31, 2024.

Notes payable

The roll forward of this account follows:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Principal		
Balance at beginning of period	₱33,138,000	₱32,148,000
Cumulative translation adjustments	(606,000)	990,000
Balance at end of period	32,532,000	33,138,000
Debt issue cost		
Balance at beginning of period	81,519	144,206
Amortization (Note 19)	(20,356)	(64,379)

Stock Rights Offering (“SRO”)

On April 23, 2025, the BOD of ACEN approved the offer and issuance of primary common shares by way of a stock rights offer to eligible stockholders of record and the subsequent listing of said shares (the “SRO”) under the following terms:

- Target issue size: Up to ₱30.00 billion worth of common shares
- Indicative pricing: Minimum of ₱2.30 per offer share

The common shares to be issued will be taken from the current unissued common shares and the increase in the ACS of ACEN, which increase was approved by ACEN’s BOD and stockholders on March 10, 2025 and April 23, 2025, respectively.

On May 30, 2025, ACEN submitted a request for confirmation of exempt transaction to the SEC and listing application to the PSE for its planned SRO. This strategic initiative is designed to strengthen ACEN’s capital base, with the primary aim of financing ACEN’s expansion plans over the next few years. This is expected to position ACEN to seize multiple growth opportunities while maintaining a solid financial foundation.

The indicative timeline for the SRO is as follows, subject to regulatory approvals and market conditions, among others:

- Pricing Date: 12 August 2025
- Ex-Rights Date: 19 August 2025
- Record Date: 20 August 2025
- Offer Period: 3 September 2025 to 9 September 2025
- Listing Date: 19 September 2025

- 60 -

The increase in ACEN's ACS, the SRO, and the listing of the common shares to be issued pursuant to the SRO with the PSE are subject to relevant regulatory approvals. ACEN expects to launch the SRO after obtaining all relevant approvals and subject to suitable market conditions. ACEN will issue subsequent disclosures in this regard.

ACEIC and Arran Investment Pte Ltd, ACEN's principal shareholders, have both indicated their support for the SRO and plan to subscribe to their pro rata shares subject to the finalization of the terms of the SRO.

On July 7, 2025, ACEN received SEC's confirmation of exempt transaction for the SRO.

Additional Paid-in Capital

The roll forward of this account follows:

Class of share	Additional Paid-In Capital (Amount)		
	Common	Redeemable Preferred	Total

- 61 -

Retained Earnings

Retained earnings represent the Group's accumulated earnings, net of dividends declared. The balance includes accumulated earnings of subsidiaries, joint venture and associates, which are not available for dividend declaration by the Parent Company until these are declared by the investee companies. The Group's retained earnings balance amounted to ₱28,135.60 million and ₱30,320.26 million as at June 30, 2025 and December 31, 2024, respectively.

Retained earnings not available for dividend declaration are included in the Group's retained earnings to the extent of (a) accumulated equity in undistributed net earnings of consolidated subsidiaries, and associates and joint ventures accounted for under equity method amounting to ₱42,856.32 million and ₱48,479.92 million as at June 30, 2025 and December 31, 2024, respectively, and (b) the cost of treasury shares amounting to ₱28.66 million as at June 30, 2025 and December 31, 2024, respectively.

As at June 30, 2025 and December 31, 2024, deferred tax liabilities have not been recognized on undistributed earnings of, and cumulative translation adjustment of, foreign subsidiaries since the timing of the reversal of the temporary difference can be controlled by the Group.

Management does not expect the reversal of the temporary differences in the foreseeable future. The undistributed earnings and cumulative translation adjustment amounted to US\$732.92 million (₱37,649.78 million) and US\$869.63 million (₱46,524.67 million) as at June 30, 2025 and December 31, 2024, respectively.

Acquisition of NCI	(595,369)	–
Balance at end of period	₱8,803,028	₱9,897,654

On January 23, 2024, ACEN Cayman through unanimous approval of its BOD redeemed US\$352.00 million (₱19,808.80 million) worth of redeemable preferred shares held by AC Energy Finance International Limited (ACEFIL). The redeemable preferred shares were subscribed by ACEFIL at par value of US\$1.00 each. Redemptions were made to the following shares:

- 280,000,000 Class A1 redeemable preferred shares with par value of US\$1.00 each;
- 12,000,000 Class A1-2 redeemable preferred shares with par value of US\$1.00 each; and
- 60,000,000 Class A3 redeemable preferred shares with par value of US\$1.00 each.

Dividends

	in US\$	In PHP
June 30, 2025		
ACEN Cayman Limited (“ACEN Cayman”)	\$5,433	₱308,913
June 30, 2024		
ACEN Cayman Limited (“ACEN Cayman”)	\$6,471	₱370,245

On various dates in 2025 and 2024, the BOD of ACEN Cayman Limited declared dividends to the shareholder of redeemable preferred shares for a total of \$5.43 million (₱308.91 million) and \$6.47 million (₱370.25 million), respectively, which was paid during the year of declaration.

Acquisition of non-controlling interest in ISLASOL

On March 6, 2025, ACEN executed a Share Purchase Agreement and Deed of Absolute Sale with AEIT, involving the sale by AEIT of 7,371 Redeemable Preferred Shares E (“RPS E”) of ISLASOL in favor of ACEN with a total purchase price of ₱141.27 million. The sale is subject to obtaining the requisite certificate authorizing registration from the Bureau of Internal Revenue.

- 63 -

Simultaneously with ACEN's acquisition of shares from AEIT, ISLASOL redeemed 15,906 RPS E shares held by AEIT in ISLASOL with a total redemption price amounting to ₱488.73 million and was paid in cash.

	Amount
Carrying amount of NCI	₱1,084,102
Total consideration for acquisition of 40% interest:	
Sale of 7,371 RPS E shares at discount	141,267
Redemption of 15,906 RPS E shares at par	488,733
	630,000
Excess of carrying amount	₱454,102

As at June 30, 2025, the remaining unpaid sale purchase price amounted to ₱30.71 million.

The acquisition of 40% ownership interest resulted to 100% interest in ISLASOL. The excess of the carrying amount of the non-controlling interest over the consideration paid is recognized under equity reserves.

As of report date, transfer of certificate authorizing registration from the Bureau of Internal Revenue is still in process.

Capital Management

The primary objective of the Group's capital management policy is to ensure that it maintains a robust financial position in order to support its business and maximize shareholder value.

The Group manages its capital structure and adjusts it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders, issue new shares or issue long-term debts.

No changes were made in the objectives, policies, or processes for the six-month period ended June 30, 2025 and year ended December 31, 2024. The Group considers its total equity as capital.

- 64 -

The loan agreements on long-term debt of the Parent Company and some subsidiaries provide for certain restrictions and requirements with respect to, among others, payment of dividends, incurrence of additional liabilities, investment and guarantees, mergers or consolidations or other material changes in their ownership, corporate set-up or management, acquisition of treasury stock, disposition and mortgage of assets and maintenance of financial ratios at certain levels. These restrictions and requirements were complied with by the Group as at June 30, 2025 and December 31, 2024.

16. Revenue from Sale of Electricity

The Group's revenue from selling electricity consists of:

	Three-Month Period Ended June 30 (Unaudited)		Six-Month Period Ended June 30 (Unaudited)

	₱7,741,714	₱9,185,050	₱15,294,496	₱18,951,145

Power Supply Agreement with MERALCO

Gigasol 3 Mid-Merit PSA

On July 17, 2024, Gigasol 3 Inc. ("Gigasol 3") won the bid to supply MERALCO a mid-merit renewable energy supply of 139 MW from February 26, 2025 to February 25, 2036 subject to the approval of ERC.

On September 23, 2024, Gigasol 3 and MERALCO filed with the ERC a joint application for the approval of the PSA. Under the PSA, Gigasol 3 will supply, at a fixed rate, 139 MW mid-merit renewable energy capacity to MERALCO for ten (10) years from the issuance by the ERC of a provisional approval. Gigasol 3 shall supply 10 MW to MERALCO beginning February 26, 2025, which will increase to 139MW beginning February 26, 2026.

On April 25, 2025, Gigasol 3 received a copy of the ERC's Order dated December 3, 2024 resolving, among others, to grant MERALCO and Gigasol 3 provisional authority to implement the PSA at ₱5.1908/kWh.

On May 5, 2025, Gigasol 3 and MERALCO implemented the PSA, without prejudice to Gigasol 3's non-acceptance of the ERC Order and filing of a Motion for Reconsideration.

On May 13, 2025, Gigasol 3 filed a Motion for Reconsideration and Urgent Re-Evaluation of the Provisionally Approved Rate with Motion for Confidential Treatment of Information.

The application is pending to date.

SCSE Mid-Merit PSA

On July 17, 2024, Santa Cruz Solar Energy Inc. (“SCSE”) won the bid to supply MERALCO a mid-merit renewable energy supply of 21 MW from February 26, 2026 to February 25, 2036 subject to the approval of ERC.

On September 27, 2024, SCSE and ACEN filed with the ERC a joint application for the approval of the PSA. Under the PSA, SCSE will supply, at a fixed rate, 21 MW mid-merit renewable energy capacity to MERALCO for ten (10) years from the issuance by the ERC of a provisional approval.

The application is pending to date.

Gain from loan assignment (Note 2)	27,186	—	27,186	—
Gain (loss) on sale of property, plant and equipment	(3)	—	60	7,248
Others	72,869	25,298	174,522	(65,449)
	(₱73,056)	₱1,664,676	₱290,186	₱2,023,402

Liquidated damages pertain to payments received by Santa Cruz Solar Energy, Inc. (“SCSEI”) for the delay in the mechanical completion of the San Marcelino Solar Project (Phase 1 and 2).

Tolling fee pertains to payment by a third party for economic benefit of the capacity of the battery facility.

For the six-month periods ended June 30, 2025 and 2024, the Group recognized corresponding guarantee fee income amounting to \$1.60 million (₱90.70 million) and to US\$1.45 million (₱83.70 million), respectively.

21. Income Taxes

a. Benefit from income tax consists of:

	Three-Month Period Ended June 30 (Unaudited)		Six-Month Period Ended June 30 (Unaudited)	
	2025	2024	2025	2024
Current				
Regular corporate income tax	₱89,606	₱760,512	₱103,413	₱943,831
Minimum corporate income tax	44,718	35,062	72,235	54,479
Final income tax	18,698	26,625	41,796	71,720
Deferred	(547,956)	32,866	(710,122)	(218,488)
	(₱394,934)	₱855,065	(₱492,678)	₱851,542

- 69 -

Net deferred tax liabilities amounted to ₦759.17 million and ₦1,454.66 million as at June 30, 2025 and December 31, 2024, respectively.

Net deferred tax assets amounted to ₦3,220.81 million and ₦3,316.98 million as at June 30, 2025 and December 31, 2024, respectively.

22. Related Party Transactions

Parties are related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence which include affiliates. Related parties may be individual or corporate entities.

In the ordinary course of business, the Group transacts with associates, affiliates, jointly controlled entities and other related parties on advances, loans, reimbursement of expenses, office space rentals, management service agreements and electricity supply.

ACEN served as the guarantor for the US\$400.00 million senior undated fixed-for-life (non-deferrable) Notes with a fixed coupon of 4.00% for life, with no step-up and no reset, priced at par, issued by ACEN Finance on September 8, 2021, under its medium-term note (MTN) Programme. Proceeds will be used to finance or refinance, in whole or in part, new or existing Eligible Green Projects in accordance with ACEN's Green Bond Framework (see Note 13).

The balances as at June 30, 2025 and December 31, 2024 and transactions for the six-month periods ended June 30, 2025 and 2024 are as follows:

a. Transactions with ACEIC, the intermediate parent company

Revenue from power supply contracts	761,882	278,698	–	–	30 days, unsecured
Cost of sale of electricity (Note 12)	(508,262)	521,318	(89,944)	(105,187)	30 days, unsecured
Due from related parties	–	–	803,901	1,140,059	On demand, Unsecured
Due to related parties (Note 12)	–	–	(2,819,706)	(2,273,247)	On demand, Unsecured

Management fee income pertains to service fees billed by the Group to its related parties under common control and joint venture and associates for providing a full range of business process outsourcing services, such as, but not limited to, financial and general accounting/bookkeeping services, human resources management, manpower related services and other related functions.

Rental income pertains to revenue from sublease agreement with Ingrid for a parcel of land in Brgy. Malaya, Pililla, Rizal.

The Parent Company purchases the entire net electricity output of MGI.

The amount of due from a related company pertains mostly to advances including those for project development or reimbursement of expenses. These are non-trade, interest-free, repayable on demand and to be settled in cash.

The amount of due to a related parties pertains to advances, including those for development cost, utilities expense, professional services and other miscellaneous expenses. These are non-trade, interest-free, repayable on demand and to be settled in cash.

i. Receivables from Employees and Officers

Receivables from officers and employees amounting to ₱288.81 million and ₱298.65 million as at June 30, 2025 and December 31, 2024 respectively, pertain to housing, car, salary and other loans granted to the Group's officers and employees.

j. Payable to Directors and Stockholders

	Amount/Volume		Outstanding Balance Receivable (Payable)		Terms / Conditions
	June 30, 2025	June 30, 2024	June 30, 2025	December 31, 2024	
Accrued director's and annual incentives					
Directors' fee and annual incentives	₱20,902	₱20,000	₱–	(₱1,200)	On demand, Unsecured
Due to stockholders					
Cash dividends	1,798,155	2,947,709	(798,955)	(13,138)	On demand, Unsecured

Key Management Compensation

Compensation of key management personnel of the Group are as follows:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Short-term employee benefits	₱64,778	₱76,443
Post-employment benefits	1,447	8,164
	₱66,225	₱84,607

Loan Agreement with Amihan Renewable Energy Corp. (AREC)

On March 28, 2025, ACEN (as lender) entered into a Facility Agreement with AREC (as borrower) for a ₱350.00 million term loan facility to fund AREC's working capital requirements. The loan is interest bearing and has a maturity date of five years from initial drawdown.

AREC is a wholly-owned subsidiary of North Luzon Renewable Energy Corp. (NLR). The ultimate parent of the AREC and NLR is Philippine Wind Holdings Corporation (PhilWind) which is a joint venture investment of the Group.

As of June 30, 2025, ₱200.00 million has been drawn from the facility.

AREIT's Declaration of Cash Dividends

On February 19, 2025, AREIT, Inc. ("AREIT") declared regular cash dividends of ₱0.58 per common share for shareholders of record as of March 5, 2025, paid on March 21, 2025.

On May 13, 2025, AREIT declared regular cash dividends of ₱0.58 per common share for shareholders of record as of May 27, 2025, paid on June 11, 2025.

For the six-month period ended June 30, 2025, the Group recognized dividend income amounting to ₱234.95 million.

Identification, Review and Approval of Related Party Transactions

All (1) SEC-defined material related party transactions, i.e., related party transaction/s, either individually or in aggregate over a twelve (12)-month period of the Group with the same related party, amounting to ten percent (10%) or higher of the Group's total consolidated assets based on its latest audited consolidated financial statements; and (2) any related party transaction/s that meet the threshold values approved by the Risk Management and Related Party Transactions Committee (the Committee), i.e., ₱50.00 million or five percent (5%) of the Group's total consolidated assets, whichever is lower, shall be reviewed by the Committee and approved by the BOD before its commencement, except transactions that are explicitly excluded/exempted by the SEC and transactions delegated to management.

For SEC-defined material related party transactions, the approval shall be by at least 2/3 vote of the BOD, with at least a majority vote of the independent directors. In case that the vote of a majority of the independent directors is not secured, the material related party transactions may be ratified by the vote of the stockholders representing at least 2/3 of the outstanding capital stock.

23. Earnings Per Share

Basic and diluted EPS are computed as follows:

	Three-Month Period Ended June 30 (Unaudited)		Six-Month Period Ended June 30 (Unaudited)	
	2025	2024	2025	2024
(In Thousands, Except for Number of Shares and Per Share Amounts)				
Net income attributable to equity holders of Parent Company	(P1,186,511)	P3,573,982	P763,040	P6,293,912
Less cumulative preferred share dividends	481,920	481,920	963,840	963,840
(a) Net income attributable to common shareholders of Parent Company	(P1,668,431)	P3,092,062	(P200,800)	P5,330,072
Common shares outstanding at beginning of period (Note 15)	39,677,394,773	39,677,394,773	39,677,394,773	39,677,394,773
(b) Weighted average common shares outstanding	39,677,394,773	39,677,394,773	39,677,394,773	39,677,394,773
Basic/Diluted earnings (loss) per share (a/b)	(P0.04)	P0.08	(P0.01)	P0.13

For the six-month periods ended June 30, 2025 and 2024, except for ESOWN, the Parent Company does not have any material potential common shares or other instruments that may entitle the holder to common shares. Consequently, diluted earnings per share is the same as basic earnings per share for the six-month periods ended June 30, 2025 and 2024.

24. Financial Risk Management Objectives and Policies

Objectives and Investment Policies

The funds of the entities are held directly by the Group and are managed by the Corporate Finance and Treasury Group ("CFT").

All cash investments of the Group are carried and governed by the following principles, stated in order of importance:

- Preservation of invested cash
- Liquidity of invested cash; and
- Yield on invested cash. Under no circumstance will yield to trump the absolute requirement that the principal amount of investment be preserved and placed in liquid instruments

The CFT manages the funds of the Group and invests them in highly liquid instruments such as short-term deposits, marketable instruments, corporate promissory notes and bonds, government bonds, and trust funds denominated in Philippine peso and U.S. dollar. It is responsible for the sound and prudent management of the Group's financial assets that finance the Group's operations and investments in enterprises.

CFT focuses on the following major risks that may affect its transactions:

- Foreign exchange risk
- Credit or counterparty risk
- Liquidity risk
- Interest rate risk

Corporate Planning and Investor Relations (“CPIR”) focuses on the following major risks that may affect its transactions:

- Market risk
- Equity price risk
- Commercial Operations (“CO”) focuses on commodity price risk.

Professional competence, prudence, clear and strong separation of office functions, due diligence and use of risk management tools are exercised at all times in the handling of the funds of the Group.

Risk Management Process

Foreign Exchange Risk

The Group defines foreign exchange risk as the risk of realizing reduced operating cash flows and/or increasing the volatility of future earnings from movements in foreign exchange. The risk is measured based on potential downside impact of market volatility to operating cash flows and target earnings.

Foreign exchange risk is generally managed in accordance with the Natural Hedge principle and further evaluated through:

- Continual monitoring of global and domestic political and economic environments that have impact on foreign exchange;
- Regular discussions with banks to get multiple perspectives on currency trends/forecasts; and
- Constant updating of the foreign currency holdings gains and losses to ensure prompt decisions if the need arises.

In the event that a Natural Hedge is not apparent, the Group endeavors to actively manage its open foreign currency exposures through:

- Trading by spot conversions; or
- Entering into derivative forward transactions on a deliverable or non-deliverable basis to protect values.

Cash flow hedges

The Group manages its foreign exchange risk by hedging future cash flows that are expected to occur within the next 12 months.

On August 1, 2024, the Group entered into a cross-currency swap agreement to hedge its exposure to variable cash flows due to foreign exchange movements on its US\$54.86 million loan due to mature in 2029 (see Note 13). There is an economic relationship between the hedged item and the hedging instrument as the terms of the foreign currency-denominated fixed-rate loan match the terms of the cross-currency swap (i.e., notional amount, maturity, payment dates).

- 77 -

On December 16, 2024, the Group entered into forward currency contracts with a notional amount of ₱1,000.00 million to hedge its exposure to variability in future cash flows due to foreign exchange movements on its highly probable forecasted EPC payments.

The Group has established a hedge ratio of 1:1 or 100% for its hedging relationships as the underlying risk of the cross-currency swap and forward currency contract is identical to the hedged risk components. In assessing the hedge effectiveness, the Group uses the hypothetical derivative method and compares the changes in the fair value of the hedging instrument against the changes in fair value of the hedged item attributable to the hedged risk.

The Group's significant foreign currency-denominated financial assets and financial liabilities are as follows:

	June 30, 2025	December 31, 2024
	U.S. Dollar (US\$)	U.S. Dollar (US\$)
Financial Assets		
Cash and cash equivalents	\$91,278	\$217,123
Other receivables	28,588	410,969
	119,866	628,092
Financial Liabilities		
Accounts payable and other current liabilities	(358)	(157,654)
Notes payable and loans-term loans	(100,545)	(1,284,670)
	(100,903)	(1,442,324)
Net foreign currency-denominated assets (liabilities)	\$18,963	(\$814,232)
Peso equivalent	₱1,072,959	(₱47,236,913)

In translating foreign currency-denominated financial assets and financial liabilities into Philippine Peso amounts, the exchange rates used were ₱56.58 to US\$1.00 as at June 30, 2025 and ₱58.01 to US\$1.00 as at December 31, 2024.

The following tables demonstrate the sensitivity to a reasonably possible change in the exchange rate, with all other variables held constant, of the Group's profit before tax (due to the changes in the fair value of monetary assets and liabilities) in periods presented. The possible changes are based on the survey conducted by management among its banks. There is no impact on the Group's equity other than those already affecting the profit or loss. The effect on profit before tax already includes the impact of derivatives.

Pertinent Period	Increase (Decrease) in Foreign Exchange Rate	US\$
June 30, 2025	(₱0.50)	(9,637)
(Unaudited)	(1.00)	(19,273)
	0.50	9,637
	1.00	19,273
December 31, 2024	(₱0.50)	407,117
(Audited)	(1.00)	814,233
	0.50	(407,117)
	1.00	(814,233)

- 78 -

For subsidiaries with functional currency in US\$, financial assets and liabilities are translated into Philippine peso, presentation currency of the Group using closing exchange rate prevailing at the reporting date, and respective income and expenses at the average rate for the period. These include the assets and liabilities of ACRI and its subsidiaries composed of dollar denominated investments in associates and joint ventures, accounts and other payables, and notes payable with US\$ functional currency, are translated into the presentation currency of the Group using the closing foreign exchange rate prevailing at the reporting date, and the respective income and expenses at the average rate for the period. Assets and liabilities of ACEN Cayman Limited, ACEN HK and ACEN Finance which are in US\$ functional currency was likewise translated to the Group's presentation currency.

The exchange difference arising on the translation are recognized in OCI under "Cumulative translation adjustments". See below for the carrying amounts.

	June 30, 2025 (Unaudited)	
	Peso	US\$

(Audited)		(1.00)	30,125
		0.50	(15,063)
		1.00	(30,125)

Credit or Counterparty Risk

The Group defines Credit or Counterparty Risk as the risk of sustaining a loss resulting from a counterparty's default to a transaction entered with the Group.

Credit or counterparty risk is managed through the following:

- Investments are coursed through or transacted with duly accredited domestic and foreign banks subject to investment limits per counterparty as approved by the Board.
- Discussions are done on every major investment by CFT before it is executed subject to the Group's Chief Financial Officer (CFO) approval. Exposure limits are tracked for every transaction and CFT Finance Managers supervise major transaction executions.
- Market and portfolio reviews are done at least once a week and as often as necessary should market conditions require. Monthly reports are given to the CFO with updates in between these reports as needed.
- A custodian bank for Philippine peso instruments and foreign currency instruments has been appointed based on its track record on such service and the bank's financial competence.

With respect to credit risk arising from the receivables of the Group, its exposures arise from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

The Group uses the following criteria to rate credit risk as to class:

Class	Description
Class A	Customers with excellent paying habits
Class B	Customers with good paying habits
Class C	Unsecured accounts

With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents, short-term investments, financial assets at FVOCI and derivative instruments, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

The Group's assessments of the credit quality of its financial assets are as follows:

- Cash and cash equivalents, short-term investments and derivative assets were assessed as high grade since these are deposited in or transacted with reputable banks, which have low probability of insolvency.
- Listed and unlisted financial assets at FVOCI were assessed as high grade since these are investments in instruments that have a recognized foreign or local third-party rating or instruments which carry guaranty or collateral.

There are no significant concentrations of credit risk within the Group.

Maximum exposure to credit risk of financial assets not subject to impairment

The gross carrying amount of financial assets not subject to impairment also represents the Group's maximum exposure to credit risk which mainly pertains to financial assets at FVOCI amounting to ₱13,041.72 million and ₱12,116.64 million as at June 30, 2025 and December 31, 2024, respectively.

- 81 -

Maximum exposure to credit risk of financial assets subject to impairment

The gross carrying amount of financial assets subject to impairment are as follows:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
<i>Financial Assets at Amortized Cost (Portfolio 1)</i>

Simplified Approach

Set out below is the information about the credit risk exposure on the Group's trade receivables using simplified approach (provision matrix) as at June 30, 2025 and December 31, 2024:

		Days Due				
	Current	<30 days	30-60 days	61-90 days	>91 days	Total
Expected credit loss rate	0.52%	1.61%	2.61%	4.49%	13%	
Estimated total gross carrying amount at default	₱4,050,731	₱732,185	₱185,229	₱280,475	₱802,418	₱6,051,038
Expected credit loss	₱20,923	₱11,775	₱4,843	₱12,583	₱105,255	₱155,379

Liquidity Risk

Liquidity risk is defined as the risk that the Group may not be able to settle or meet its obligations on time or at a reasonable price.

Liquidity risk is managed through:

- Asset and Liability Management principle. Short-term assets are used to fund short-term liabilities while major investments, capital expenditures and long-term assets are funded by long-term liabilities.
- Detailed cash flow forecasting and continuous monitoring of the weekly and monthly cash flows as well as frequent updates of the annual plans of the Group.
- Investment maturities being spread on a weekly, monthly, and annual basis as indicated in the Group's plans. Average duration of investments does not exceed one (1) year.
- Setting up working capital lines to address unforeseen cash requirements that may cause pressure to liquidity.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at June 30, 2025 and December 31, 2024, the Group has fixed rate financial instruments measured at fair value.

The Group's exposure to interest rate risk relates primarily to long-term debt obligations that bear floating interest rate. The Group generally mitigates risk of changes in market interest rates by constantly monitoring fluctuations of interest rates and maintaining a mix of fixed and floating interest-bearing loans.

Market Risk

Market risk is the risk that the value of an investment will decrease due to drastic adverse market movements that consist of interest rate fluctuations affecting bid values or fluctuations in stock market valuation due to gyrations in offshore equity markets or business and economic changes. Interest rate, foreign exchange rates and risk appetite are factors of a market risk as the summation of the three defines the value of an instrument or a financial asset.

*Commodity Price Risk*Cash flow hedges

The Group defines Commodity Price Risk as the risk of realizing reduced profit margins and/or increasing the volatility of future earnings that are affected by the pricing variability and uncertainty in coal and fuel supply and any associated foreign exchange risk. The risk is measured based on potential downside impact of market volatility to target earnings.

To manage Commodity Price Risk, the Group develops a Coal and Fuel Hedging Strategy aimed to:

- Manage the risk associated with unexpected increase in coal and fuel prices which affect the target Profit & Loss of the Group
- Determine the Hedge Item and appropriate Hedging Instrument to use, including but not limited to price, amount and tenor of the hedge to reduce the risk to an acceptable level
- Reduce Mark-to-Market impact of hedges by qualifying the hedging transaction for hedge accounting

Only the Group's Chief Executive Officer, Chief Finance Officer and Philippine Chief Operating Officer (PH COO) are authorized to make coal and bunker fuel oil hedging decisions for the Group. All executed hedges go through a stringent approval process to justify the tenor, price and volume of the hedge to be undertaken.

Monitoring and assessment of the hedge effectiveness and Coal and Fuel Hedging Strategy are reviewed periodically by the Commercial Operations. Continuation, addition, reduction and termination of existing hedges are decided by the Head of CO and any material change in permissible hedging instrument, counterparties and limits are elevated to the BOD for approval.

The Group purchases coal and bunker fuel oil on an ongoing basis for its operating activities in the thermal energy power generators, composed of SLTEC (by virtue of the AMA) and other diesel power plants (CIPP, One Subic Power, Bulacan Power). The increased volatility in coal and fuel oil price over time led to entering in commodity swap contracts. The forecasted volumes are determined based on each plant's projected operating capacity, plant availability, required monthly consumption and storage capacity. These contracts are expected to reduce the volatility attributable to price fluctuations. Hedging the price volatility of forecast coal and bunker fuel oil purchases is in accordance with the risk management strategy outlined by the Board.

There is an economic relationship between the hedged items and the hedging instruments as the terms of the foreign exchange and commodity swap contracts match the terms of the expected highly probable forecast transactions (i.e., notional amount and expected payment date). The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the foreign exchange and commodity swap contracts are identical to the hedged risk components. To test the hedge effectiveness, the Group uses the hypothetical derivative method and compares the changes in the fair value of the hedging instruments against the changes in fair value of the hedged items attributable to the hedged risks.

The hedge ineffectiveness can arise from:

- Differences in the timing of the cash flows of the hedged items and the hedging instruments
- Different indexes (and accordingly different curves) linked to the hedged risk of the hedged items and hedging instruments
- The counterparties' credit risk differently impacting the fair value movements of the hedging instruments and hedged items
- Changes to the forecasted amount of cash flows of hedged items and hedging instruments

- 86 -

The Group is holding the following foreign exchange and commodity swap contracts:

	Maturity						
	< 1 month	1-3 months	4-6 months	7-9 months	10-12 months	>12 months	Total

Monitoring of Risk Management Process

Risk management is regarded as a core competency, thus review of processes and approval processes including periodic audit are practiced and observed as follows:

- Enterprise risk assessments are refreshed on an annual basis. Risk assessments at the plant level are also conducted for operational risks. Insurance coverage is also reviewed annually by the Insurance Committee.
- Monthly Treasury meetings are scheduled where approved strategies, limits, mixes are challenged and rechallenged based on current and forecasted developments on the financial and political events.
- Monthly management reports are submitted to the Operations Management Committee that includes updates from the various business and functional units, including market updates. This includes updates on financials, leverage, operations, health and safety, human resources, sustainability, and other risk areas.
- Annual planning sessions are conducted to set the targets for the Group, and these are revisited at midyear to review the progress and risks related to the accomplishment of these targets.
- Annual teambuilding sessions are organized as a venue for the review of personal goals, corporate goals and professional development.
- One on one coaching sessions are scheduled to assist, train and advise personnel.
- Periodic review of Treasury risk profile and control procedures.
- Periodic specialized audit is performed to ensure active risk oversight.

Capital Management

Statutory debt consists of short-term and long-term debts of the Group. Net statutory debt includes short-term and long-term debts less cash and cash equivalents, short-term investments and restricted cash. The Group considers its total equity (including redeemable preferred shares) as capital.

- 88 -

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Short-term debt (Note 13)	₱9,017,353	₱5,600,000
Long-term debt (Note 13)	137,360,305	127,912,375
Total statutory debt	146,377,658	133,512,375
Less:		
Cash and cash equivalent (Note 4)	24,091,291	25,158,358
Short-term investments (Note 11)	—	161,966
Net statutory debt	122,286,367	108,192,051
Total equity	154,336,813	157,443,200
Debt to equity	94.84%	84.80%
Net debt to equity	79.23%	68.72%

The Group closely monitors its debt covenants and maintains a capital expenditure program and dividend declaration policy that keep the compliance of these covenants into consideration. The Group is not subject to externally imposed capital requirements.

25. Fair Values

The table below presents the carrying values and fair values of the Group's financial assets and financial liabilities, by category and by class:

		June 30, 2025 (Unaudited)		
		Fair Value		
	Carrying Value	Quoted Prices in Active Markets (Level 1)	Significant Observable Input (Level 2)	Significant Unobservable Inputs (Level 3)
Assets

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following methods and assumptions are used to estimate the fair values of each class of financial instruments:

Cash and Cash Equivalents, Short-term Investment, Receivables, Accounts Payable and Other Current Liabilities and Due to Stockholders

The carrying amounts of cash and cash equivalents, short-term investment, receivables, accounts payable and other current liabilities and due to stockholders approximate their fair values due to the relatively short-term maturities of these financial instruments.

Financial Asset at FVTPL and FVOCI

Quoted financial assets at FVOCI and FVTPL, specifically for publicly traded shares held by the Group, were measured using market prices and classified as Level 1.

In 2024, the Group acquired equity shares of AREIT via property-for share swap (see Note 20). The AREIT shares are accounted as financial asset at FVOCI and classified as Level 1. The carrying amount of AREIT shares amounted to ₱8,163.49 million and ₱7,556.20 million as at June 30, 2025 and December 31, 2024, respectively.

- 90 -

Other quoted financial assets at FVTPL held by the Group consist of investments in unit investment trust funds (UITFs) were measured using the funds' net asset value (NAV) and classified as Level 2.

The carrying amount of the Group's UITF amounted to ₱4,247.02 million and ₱5,704.35 million as at June 30, 2025 and December 31, 2024, respectively.

Unquoted financial assets at FVTPL and FVOCI, specifically debt and equity instruments held by the Group were measured using the DCF technique in estimating the fair value of the financial instruments. Based on the financial performance and financial position of the investee entity which is a related party investment company, management estimates the amount and timing of the future cash inflow arising from redemption of preferred shares.

Financial assets at FVTPL classified as Level 3 consists of Compulsorily Convertible Debentures of Masaya Solar Energy Private Limited. The carrying amount of financial assets at FVTPL amounted to ₱934.77 million and ₱921.79 million as at June 30, 2025 and December 31, 2024, respectively.

Financial assets at FVOCI classified as Level 3 consists of investments in Redeemable Preference Share in UPC-ACE Solar, BrightNight and PT Puri Prakarsa Batam and IBV ACEN Renewables Asia Pte. The carrying amount of financial assets at FVOCI amounted to ₱4,878.24 million and ₱4,560.44 million as at June 30, 2025 and December 31, 2024, respectively.

Investment in redeemable preferred shares and convertible loans

The estimated fair value is based on the discounted value of future cash flows using the prevailing credit adjusted risk-free rates that are adjusted for credit spread.

Noncurrent trade receivables, Receivables from third parties, Refundable Deposits, Deposits Payable and Other Liabilities

Estimated fair value is based on present value of future cash flows discounted using the prevailing BVAL rates that are specific to the tenor of the instruments' cash flows at the end of the reporting period.

Long-Term Loans

The estimated fair value is based on the discounted value of future cash flows using the prevailing credit adjusted risk-free rates that are adjusted for credit spread. Interest rates used in discounting cash flows ranged from 2.93% to 8.35% and 3.02% to 8.52% as at June 30, 2025 and December 31, 2024, respectively.

Notes Payable

The estimated fair value is based on the discounted value of future cash flows using the prevailing credit adjusted risk-free rates that are adjusted for credit spread. Interest rates used in discounting cash flows is 5.83% and 6.15% as at June 30, 2025 and December 31, 2024, respectively.

Derivative asset and liability

The fair value of the derivative asset and liability is determined using valuation techniques with inputs and assumptions that are based on market observable data and conditions and reflect appropriate risk adjustments that market participants would make for risks existing at the end of each reporting period. The following table gives information about how the fair values of derivative asset are determined (in particular, the valuation technique(s) and inputs used).

Derivative asset	Valuation technique
Long-term Energy Supply Agreement	Discounted cash flow. Valuation requires the use of long dated energy valuation volumes and long dated energy and LGC price curves
Interest rate swaps	Discounted cash flow. Future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of various counterparts

There were no significant unobservable inputs used in the valuation of the derivative assets on Long-term Energy Supply Agreement.

Derivative assets on long-term energy supply agreement amounted to ₱4,668.68 million and ₱4,394.11 million as at June 30, 2025 and December 31, 2024, respectively were classified as Level 3 in fair value hierarchy while derivative assets on interest rate swaps amounted to ₱194.11 million and ₱157.66 million as at June 30, 2025 and December 31, 2024, respectively were classified as Level 2 in fair value hierarchy.

There were no transfers between levels in the fair value hierarchy in 2025 and 2024.

26. Operating Segment Information

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements.

For management purposes, the Group is organized into the following business units:

- Philippines, which includes:
 1. Retail Electricity Supply (RES) and Commercial Operations (CO)
 2. Renewables - generation, transmission, distribution, and supply of electricity using renewable sources such as solar, wind, and geothermal resources
 3. Thermal - generation, transmission, distribution, and supply of electricity using conventional methods of energy generation
 4. Project development
 5. Leasing
 6. Bulk water supply - arising from previously owned biomass project (ACEN legacy projects)
 7. Petroleum and exploration - pursued via 75.92% owned subsidiary, ENEX Energy Corp.
- International represents the operations of ACRI, which is the holding company for all offshore investments, which includes businesses from Australia, Vietnam, Indonesia, India and rest of the world. This includes earnings from the operations of ACEN Australia, international renewable investments, as well as project development expenses, financing activities, and overhead expenses for the various renewable power projects in the pipeline.
- Parent and Others represents operations of the Parent Company (excluding Commercial Operations) including its financing entities such as ACEN Finance Limited and ACEN Cayman Ltd.

- 92 -

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on (1) operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statement referred to by management as “Core Operating Earnings” and (2) selected attributable financial information, specifically attributable earnings before interest, taxes, depreciation, and amortization (EBITDA) and attributable debt of renewable energy projects.

Statutory EBITDA is the sum of the consolidated (1) revenues, (2) cost and expenses excluding depreciation and amortization and provision for impairment, (3) equity in net income of associates and joint ventures and (4) other income - net (excluding gain on previously held interest, unrealized foreign exchange gain/loss, fair value loss on financial asset at FVTPL).

Attributable EBITDA is the sum of (1) statutory EBITDA, and (2) nonconsolidated operating projects’ EBITDA multiplied by ACEN’s economic interest less (1) equity in net income of associates and joint ventures, and (2) less interest and other financial income from Investment in redeemable preferred shares and convertible loans (this is presented under other income (charges) in the unaudited interim condensed consolidated statements of income). This is not equivalent to the statutory EBITDA of the Group.

Operating projects’ EBITDA follows the same definition as statutory EBITDA.

Nonconsolidated projects are investments in associates and joint ventures and investment in redeemable preferred shares and convertible loans of the Group.

Statutory net debt is the sum of consolidated (1) short-term loans, (2) long-term loans, and (3) notes payable less consolidated cash and cash equivalents.

Attributable net debt is the sum of (1) statutory net debt and (2) nonconsolidated operating projects’ net debt which is debt less cash multiplied by ACEN’s economic interest.

Statutory and attributable net debt includes recourse and non-recourse debt. Nonconsolidated operating projects’ net debt excludes intercompany loans wherein the Group is the lender. These are bridge financing, development loans and investment in redeemable preferred shares and convertible loans in the unaudited interim condensed consolidated statements of financial position of the Group.

For the six-month period ended June 30, 2025 and 2024, revenue earned from a single external customer which accounted for more than 10% of the consolidated revenues from external customers, arising from sales in the Philippine Segment amounted to ₱1,725.91 million and ₱2,770.09 million, respectively.

Intersegment transfers or transactions are entered into under the normal commercial terms and conditions that would also be available to unrelated third parties. Segment revenue, segment expense and segment results are shown net of transfers between operating segments. Those transfers are eliminated in consolidation.

- 93 -

The following tables regarding operating segments present revenue and income information for the six-month periods ended June 30, 2025 and 2024 and assets and liabilities as at June 30, 2025 and December 31, 2024:

For the six-month period ended June 30, 2025 (Unaudited)				
	Philippines	International	Parent and Others	Consolidated
REVENUES

As of December 31, 2024, with recourse, limited recourse and non-recourse statutory debt amount to ₱62,488.66 million, ₱7,845.63 million and ₱12,398.14 million, respectively. These amounts exclude statutory debt of the Parent Company.

Some of the international attributable debt is covered by guarantees (see Note 20).

Adjustments and Eliminations

Interest on parent loans and other financial income, including fair value gains and losses on financial assets, are not allocated to individual segments as the underlying instruments are managed on a group basis. Likewise, certain operating expenses and finance-related charges are managed on a group basis and are not allocated to operating segments. Allocable operating expenses have been allocated as applicable.

Current taxes, deferred taxes and certain financial assets and liabilities are not allocated to those segments as they are also managed on a group basis.

- 98 -

Other income - Net includes interest and other financial income from investments in redeemable preferred shares of associates and joint ventures and from development loans and advances to these associates and joint ventures, guarantee fee income, reversal of allowance for impairment of advances to contractors and impairment of investments in joint ventures, tax credits on real property taxes, gain (loss) on derivatives, gain on sale of by-product, claims on insurance, foreign exchange gain (loss), gain (loss) on sale of property, plant and equipment, mark-to market gains, fees on advisory services, and other miscellaneous income (expense) which are allocated to operating segments.

Capital expenditures consist of additions to property, plant and equipment. Investments and advances consist of investments and cash advances to the Group's associates and joint ventures.

27. Supplemental Cash Flows Information

The non-cash investing activities of the Group for the six-month periods ended June 30, 2025 and 2024 are as follows:

	Six-month Period Ended June 30 (Unaudited)	
	2025	2024
Non-cash additions to property, plant and equipment	(P531,610)	P1,152,868
Set-up of ROU assets from new lease agreements	42,853	131,431
Reclassifications to (from):		
Property, plant and equipment	2,574,171	6,474,889
Investments in associates and joint ventures	669,252	338,884
Other noncurrent assets	(2,574,171)	(5,167,624)
Investments in redeemable preferred shares and convertible loans	—	(338,884)
Creditable withholding taxes	(246,464)	(38,345)

Others includes the amortization of debt issue costs, interest expense, capitalized borrowing costs, foreign exchange gains/losses and the effect of reclassification of noncurrent portion to current due to passage of time.

28. Provisions and Contingencies

Tax assessments:

On August 20, 2014, ACEN distributed cash and property dividends in the form of shares in ENEX after securing SEC's approval of the registration and receipt of CAR from the BIR.

On October 22, 2014, ACEN received from the BIR a Formal Letter of Demand ("FLD"), assessing ACEN for a total donor's tax due of ₱157.75 million inclusive of penalty and interest up to September 30, 2014.

On November 21, 2014, ACEN and its independent legal counsel filed an administrative protest in response to the FLD, on the following grounds:

1. The dividend distribution is a distribution of profits by ACEN to its stockholders and not a "disposition" as contemplated under Revenue Regulations Nos. 6-2008 and 6-2013 which would result in the realization of any capital gain of ACEN;
2. ACEN did not realize any gain or increase its wealth as a result of the dividend distribution; and,
3. There was no donative intent on the part of ACEN.

On May 27, 2015, ACEN received from the BIR a Final Decision on Disputed Assessment ("FDDA") denying the protest.

On June 25, 2015, ACEN filed with the Court of Tax Appeals ("CTA") a Petition for Review seeking a review of the FDDA and requesting the cancellation of the assessment.

In its decision dated September 28, 2018, the CTA Third Division granted ACEN's petition and ordered the cancellation and withdrawal of the FLD (the "CTA Third Division Decision"). On January 18, 2019, the CTA denied the Commissioner of Internal Revenue's ("CIR") motion for reconsideration ("CTA Resolution"). On February 22, 2019, the CIR filed a petition for review with the CTA *en banc* seeking the reversal of the CTA Third Division's Decision and CTA Resolution. On July 21, 2020, the CTA *en banc* upheld the CTA Third Division Decision and denied the CIR's petition. The CIR filed a motion for reconsideration dated August 26, 2020. In

- 100 -

response, ACEN filed its Comment/ Opposition. On October 13, 2021, CTA *en banc* issued a resolution stating that the Motion for Reconsideration and Motion to Release Surety Bond are now submitted for resolution.

As at August 4, 2025, the CIR's motion for reconsideration has not been resolved by the CTA *en banc*.

On May 15, 2023, ACEN received a Letter of Authority from the BIR covering taxable year 2021. Pursuant thereto, assessment notices were served for various internal revenue taxes inclusive of increments which ACEN accordingly responded to and was the subject of a settlement last February 13, 2025.

Claims for tax refund

- a. On May 19, 2022, Guimaras Wind Corporation ("Guimaras Wind") received a copy of the Decision of the CTA En Banc dated May 17, 2022 denying Guimaras Wind's Petition for Review for lack of merit. The CTA En Banc affirmed the decision dated January 3, 2020 and Resolutions dated July 1, 2020 and September 23, 2020, both rendered by the CTA Third Division, which partially granted Guimaras Wind's claim for the refund of or the issuance of a tax credit certificate in the reduced amount of ₱16,149,514, out of the total amount claimed of ₱335,759,253, representing Guimaras Wind's excess and unutilized input value-added tax for Q3 and Q4 of 2014 and Q1 and Q2 of 2015. Guimaras Wind filed its Motion for Reconsideration (MR) to the CTA En Banc on June 3, 2022.

On June 27, 2022, Guimaras Wind received a Resolution from the CTA En Banc directing Guimaras Wind to file its Comment to the MR filed by the Commissioner of Internal Revenue ("CIR") within five (5) days from receipt of the said Resolution. Consequently, Guimaras Wind complied with the Resolution and filed its Comment to the CTA En Banc on July 4, 2022.

On January 17, 2023, the CTA En Banc issued a Resolution reiterating its Decision dated May 17, 2022, which in turn affirmed the CTA Third Division's Decision limiting Guimaras Wind's entitlement to refund to a reduced amount of ₱16,149,514.

The CTA En Banc held that the Certificate of Endorsement (COE) from the DOE and the Certificate of Compliance (COC) from the Energy Regulatory Commission (ERC) are both required in order for Guimaras Wind to properly avail of VAT zero-rating incentives. The CTA En Banc also rejected Guimaras Wind's position that its application for COC should be deemed "provisionally approved" six months from the filing of its application for a COC with the ERC.

On February 3, 2023, Guimaras Wind filed a Motion for Extension of Time to File Petition for Review on Certiorari with the Supreme Court (SC). On March 6, 2023, the Company filed the Petition.

On January 24, 2024, the SC Third Division issued a Resolution requiring Guimaras Wind to file a Comment to the Petition for Review filed by the CIR within ten (10) days from receipt of the notice. Guimaras Wind filed the Comment on February 10, 2024.

On April 16, 2024, Guimaras Wind received the CIR's MOTEX to file their Comment dated April 3, 2024. On December 19, 2024, Guimaras Wind received a copy of the SC Third Division's Notice which notifies Guimaras Wind and CIR that it issued a Resolution dated

August 7, 2024, requiring Guimaras Wind to file a Reply to the Comment within ten (10) days from notice, or until January 2, 2025. Guimaras Wind filed the Reply on said date. Awaiting for the decision or resolution as of date from the SC's Third Division.

- b. On April 12, 2017, San Carlos Solar Energy Inc. ("SACASOL") filed a Petition for Review with the CTA regarding the disallowed claim of 2015 input VAT amounting to ₱40.62 million. On February 3, 2021, the CTA denied SACASOL's Petition for Review on the ground that SACASOL failed to establish that its sales qualify for VAT zero-rating because SACASOL did not present any proof that it was issued a DOE Certificate of Endorsement ("COE"), on a per transaction basis. On February 26, 2021, SACASOL filed a Motion for Reconsideration ("MR"), on the basis that there is no legal requirement for the COE to be on a per transaction basis for the VAT zero-rating of SACASOL's sales, and the VAT zero-rated sales were never disputed considering the partial grant by the BIR of SACASOL's claim for unutilized input VAT attributable to VAT zero-rated sales.

On May 6 and 20, 2021, SACASOL filed Supplemental Motions to admit additional evidence which included a DOE letter and certification confirming that a COR on a per transaction basis is not required for purposes of VAT zero-rating of RE Sales of RE Developers and such document is not actually being issued by the DOE. On September 22, 2021, CTA Third Division issued a resolution denying the Motion for Reconsideration.

On February 2, 2023, SACASOL filed a Petition for Review before the CTA En Banc.

On April 27, 2023 CTA En Banc denied SACASOL Petition for Review on the basis of jurisdictional grounds. The CTA En Banc denied the Petition on the ground that the CTA Third Division purportedly has no jurisdiction to entertain the judicial claim for refund for being filed beyond the 120+30 day mandatory and jurisdictional period. The CTA En Banc counted the 120-day period from November 3, 2016 - the date when SACASOL filed its administrative claim for refund, and noted that the BIR only had until March 3, 2017 to decide the said claim. The CTA En Banc then held that since SACASOL did not receive an adverse decision from the BIR by March 3, 2017, the law considers the administrative claim as denied. According to the Decision, SACASOL had 30 days from March 3, 2017 or until April 3, 2017 to seek judicial redress. Since the Petition was only filed on April 12, 2017, the CTA is deprived of jurisdiction to hear the case.

On May 19, 2023, SACASOL filed its MR on the ground that (i) Sec112(c) does not require that the BIR acts and the taxpayer receives the decision within the 120 days; and (ii) SACASOL should be able to file the judicial claim within 30 days from receipt of the decision, as long the decision was made within the 120-day period.

On January 12, 2024, SACASOL received CTA EN Banc Resolution denying the and reiterated its earlier ruling that CTA has no jurisdiction for failure of SACASOL to file its judicial claim for refund within the 120+30 days period from the filing of its administrative claim. The CTA En Banc ruled that the issues in the MR were already addressed, discussed and found wanting in its earlier Decision. On March 4, 2024, SACASOL filed its Petition for Review with the Supreme Court. On February 5, 2025, BIR filed its Comment with the Supreme Court.

As at June 30, 2025, SACASOL has not received any orders from the Supreme Court relating to the case.

Provisions and Contingencies

NorthWind Power Development Corporation (“NorthWind”) is a party to several cases involving the assessment and collection of real property tax (“RPT”) on various assets located in the Municipality of Bangui. NorthWind was assessed RPT at a rate of two percent (2%) or an aggregate amount of ₱211.80 million for years 2017 to 2024. NorthWind paid under protest the RPT thereon and filed a protest on the imposition of 2% tax rate on its Renewable Energy (“RE”) facilities. Under Republic Act No. 9513 or the RE Law, realty and other taxes on civil works, equipment, machinery, and other improvements of a Registered RE Developer actually and exclusively used for RE facilities shall not exceed 1.5% of their original cost less accumulated normal depreciation or net book value.

As at June 30, 2025, the 2017 to 2025 RPT protest is pending decision with the Local Board of Assessment Appeals of Ilocos Norte.

Compliance with Must Offer Rule

On October 4, 2018, CIPP, One Subic Power, Bulacan Power and the Parent Company received a letter from PEMC for pending investigation of trading intervals covering periods from 2014 to 2018. The scope of the investigation covers possible non-compliance with the Must Offer Rule (MOR) and with the Real-Time Dispatch (RTD) or System Operator Instructions.

On October 28, 2020 and August 17, 2021, the PEMC Board cleared CIP and found no breaches from August 2014 to December 2015. On June 3, 2022, the PEMC Board cleared One Subic Power and found no breaches for the period May-December 2014 period. In the May 2022 meeting, PEMC met with trading participants with pending investigations and discussed a shortened process in the investigation while at the same time ensuring due process for all participants. The shortened process will adopt the current PEMC process of frequently flagging the trading participant of the intervals under investigation and requesting for immediate replies and dispensing with lengthy discussions in its investigation reports.

On July 7, 2023, the PEMC Board issued a Notice on Investigation Report which approves the imposition of penalty amounting to ₱700,000 against One Subic Power for breach of MOR. The said breaches were broken down as follows: four breaches in 2014, one breach in 2015, one breach in 2016, and one breach in 2019.

In the May 5, 2023 PEM Board Action letter, the PEM Board cleared Bulacan Power of 10,821 trading intervals, and released its findings and found NO breaches for Bulacan Power for said trading intervals during the January 2015-December 2015 and January 2016-December 2016 investigation periods.

As for CIP II, no breach was found for all the trading intervals from 2014-2021. The PEMC Board issued a Certification dated 24 July 2023 certifying that the investigation cases have been closed and finally disposed of by PEMC.

On July 23, 2025, One Subic Power paid a financial penalty of ₱0.66 million to PEMC to address the PEMC’s finding of certain non-compliances with the Must-Offer Rule under WESM rules, for the period April 2014 to December 2015. One Subic Power received the assessment on July 15, 2025.

Further to the PEMC’s findings for instances occurring more than 10 years ago, One Subic Power has since implemented corrective measures and strengthened its internal controls to ensure alignment with market regulations. These actions reflect One Subic Power continued commitment to operational excellence, regulatory compliance, and market integrity.

Refund of Market Transaction Fee from PEMC

On July 9, 2020, the ERC issued its Decision on ERC Case 2015-160 RC ordering PEMC to refund the over collection in the Market Transaction Fee (MTF) in 2016 and 2017. The ERC determined the over collection by getting the variance between the MTF collected in 2016 and 2017, and the ERC-Approved Budget of PEMC for the same period. The total refund was determined at ₱433.20 million which shall be apportioned among all the Luzon and Visayas participants. The ERC has directed PEMC to implement the refund over twelve (12) months beginning the next billing month upon receipt of the relevant Decision.

The PEMC filed a motion for reconsideration with the ERC. In an Order promulgated on June 11, 2021, the ERC resolved to deny the motion for reconsideration filed by the. The market level fee approved by the ERC in its Decision of July 2020 was implemented by the Independent Electricity Market Operator of the Philippines for the WESM market fee collection for the calendar year 2021.

29. Events After the Reporting Period

As of August 4, 2025, there are no material financial events that would warrant additional disclosures except as separately disclosed in the other notes to financial statements.

ANNEX B: Management's Discussion and Analysis or Plan of Operations

The following discussion and analysis of financial position and results of operations of ACEN and its subsidiaries should be read in conjunction with the unaudited interim consolidated financial statements as at June 30, 2025, for the six-month periods ended June 30, 2025 and 2024 and the audited consolidated financial statements as at June 30, 2025. The audited consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards.

2025

Corporate Highlights:

- In February 2025, ACEN achieved Leadership level and an A- rating for its climate actions from CDP, the global non-profit that assesses corporate environmental transparency and performance in climate change, deforestation and water security. This marks an improvement from ACEN's previous B rating, underscoring the company's continued commitment to climate action and transparency. To attain Leadership status, companies must demonstrate best practices in climate action, environmental governance, transparency, risk management and target setting. CDP scores organizations from A (highest) to D- (lowest) based on the comprehensiveness of their disclosures, awareness of environmental issues, management strategies and progress toward sustainability goals.
- In March 2025, ACEN executed a Share Purchase Agreement and Deed of Absolute Sale for Negros Island Solar Power, Inc. ("Islasol") from Asian Energy Impact Trust Plc ("AEIT"), involving the sale by AEIT of seven thousand three hundred seventy-one (7,371) Redeemable Preferred Shares E ("RPS E") of Islasol in favor of the Company. Upon the completion of the sale (subject to obtaining the requisite certificate authorizing registration from the Bureau of Internal Revenue), the Company will acquire full ownership of Islasol.
- In March 2025, ACEN acted as a sponsor, share security grantor, guarantor, and grantor for Giga Ace 6 (GA6), the corporate entity for the first phase of the Quezon North Onshore Wind Power Project, for an omnibus loan and security agreement with the Bank of the Philippine Islands, BDO Unibank, Inc., and Rizal Commercial Banking Corporation as Senior Lenders, and BDO Unibank, Inc. – Trust Investment Group as Facility Agent, Paying Agent and Security Trustee, for a senior secured green term loan facility, in the amount of up to Php34.41 billion, to partially finance GA6's 344.5 MWp wind plant.
- In April 2025, ACEN Australia completed an AUD750 million portfolio debt financing of its operating renewables assets and financing for new projects in that country, cementing the ACEN subsidiary's position as a long-term investor in Australia's clean economy. The transaction will support the financing of ACEN Australia's near-complete 520 MWdc (400 MWac) Stubbo Solar project in NSW, and follows first generation from Stage 1 of the company's 522 MWdc (400 MWac) New England Solar project in 2023. The transaction was supported by a group of 11 leading Australian and international lenders, broadening ACEN Australia's financial partnerships and underscoring strong market confidence in the company's track record and growth strategy.
- In May 2025, ACEN announced that Mitsubishi Corporation (Mitsubishi) and its subsidiary, Diamond Generating Asia, Limited (DGA), have joined the Company, GenZero, and Keppel Ltd.

(Keppel)'s agreement to explore a potential collaboration, through a pioneering effort that leverages the Transition Credits mechanism, for the early retirement and replacing the generation output of the 246 MW SLTEC coal-fired power plant in the Philippines with clean and reliable energy. Mitsubishi and DGA formally entered the collaboration through the signing of a Deed of Accession to the Memorandum of Understanding (MOU) established in 2024 between ACEN, GenZero, and Keppel. This potential partnership aims to evaluate the feasibility of leveraging Transition Credits through a pioneering initiative that demonstrates how innovative financial mechanisms can accelerate the early retirement of coal-fired power plants in favor of sustainable, clean alternatives. Mitsubishi and DGA's participation enhances access to the Japanese market, which plays a significant role in global decarbonisation efforts and could support the emissions trading scheme in Japan,

- In May 2025, ACEN Australia announced it secured access rights to the Central West-Orana Renewable Energy Zone (CWO REZ) for three of its major pipeline projects in New South Wales. The obtaining of these rights marks a significant step in the growth and diversification of the Australian portfolio. The 920 MW Valley of the Winds, 600 MWac (780 MWdc) Birriwa Solar and 600 MW/2hr Birriwa BESS projects secured the right to connect to the new CWO REZ transmission infrastructure assets being delivered by ACE-REZ on behalf of the New South Wales Government following a competitive tender process. The Birriwa Solar and BESS projects were approved by the New South Wales Department of Planning in August 2024, and the Valley of the Winds project is in the final stage of the development planning review process.
- At the end of May, 2025, ACEN signed definitive agreements with Copenhagen Infrastructure Partners' (CIP) Growth Markets Fund II to acquire a 25% minority stake in the latter's proposed offshore wind project in Camarines Sur subject to applicable regulatory approvals. With the project set to become one of the Philippines' first offshore wind projects with a potential installed capacity of up to 1 GW, this underscores ACEN's commitment to unlocking the country's untapped offshore wind resource to accelerate the country's energy transition. Positioned as among the most advanced offshore wind initiatives in the country, the project, located near the coast of San Miguel Bay in Camarines Sur, leverages strategic site conditions, including abundant wind resources, shallow water depths to mitigate offshore wind challenges and close proximity to the shore and the nearest substation. Its in-bay location also presents a lower typhoon risk, further ensuring stability in operations. The project is currently in its pre-development stage in anticipation of the Department of Energy's 5th round of the Green Energy Auction (GEA-5) and will be subject to relevant regulatory approvals.
- In June 2025, the Company's Executive Committee approved the sale to AC Energy and Infrastructure Corporation ("ACEIC"), ACEN's majority shareholder, of ACEN's ownership interests in the following special purpose companies owning the Company's diesel plants: Bulacan Power Generation Corporation: 52MW diesel plant (Norzagaray, Bulacan), One Subic Power Generation Corporation: 116MW diesel plant (Subic Freeport), and CIP II Power Corporation: 21MW diesel plant (Bacnotan, La Union). This divestment will ensure that the Company achieves its goal of reaching 100% renewable energy generation by end-2025. The completion of the transaction is subject to the satisfaction of agreed conditions precedent and the execution of definitive documentation, and will be implemented via a sale to ACEIC of the Company's outstanding common shares in the aforementioned special purpose companies.

- 3 -

- In June 2025, ACEN, with its longtime strategic partner UPC Renewables, commenced construction of two renewable energy projects in India: a 420 MW solar farm in Rajasthan and a 120 MW wind farm in Karnataka. Slated for completion by early 2027, the projects are expected to generate a combined 1,158 GWh of clean electricity annually, enough to power around 241,000 homes and avoid over 876,000 tons of carbon emissions each year. Together, the projects will also create over 1,500 green jobs during the construction phase, contributing to local employment and economic development.

Operating Highlights:

- ACEN as of June 30, 2025, has 7,053MW (megawatts) of attributable renewable capacity from projects that are operational, under construction, and committed in the Philippines and internationally.
- The operating status split of the 7,053MW net attributable renewable capacity is:
 - 51% or 3,598MW operating
 - 42% or 2,941MW under construction; and
 - 7% or 514MW committed

Committed capacity refers to a project that has already been approved by the Board of Directors but has not received notice to proceed with construction.

- The geographical split of the 7,053MW net attributable renewable capacity is:
 - 35% or 2,429MW - Philippines
 - 18% or 1,242MW - Australia
 - 17% or 1,213MW - Vietnam – Lao PDR
 - 24% or 1,703W - India
 - 2% or 107MW - Indonesia
 - 2% or 142MW - United States of America
 - 3% or 218MW – Others, primarily rooftop solar from the NEFIN partnership across several countries in Southeast Asia
- The technology split of the 7,053MW net attributable renewable capacity is:
 - 65% or 4,663MW – Solar
 - 28% or 1,972MW – Wind
 - 4% or 304MW - Battery
 - 2% or 115MW – Geothermal

- The table below presents the selected data on the Group's renewable portfolio in operation and under construction as of June 30, 2025, totaling 6,539MW.

3. Phases 2, 3, and 4 of the Solar NT acquisition are subject to completion of conditions precedent.							
4. Comprises of Mainland China, Hong Kong, Malaysia, Thailand, Taiwan, and Singapore.							

As of June 30, 2025, the Group owns 68MW of attributable capacity from diesel power plants in Bulacan and La Union, Philippines.

- The attributable renewable generation output reached 3,228 GWh (gigawatt hours), reflecting a 9% increase compared to the same period in 2024. This notable growth can be largely attributed to the Stubbo solar plant commencing its testing phase, along with contributions from plants that became operational in 2024. Furthermore, the additional economic stake in partner platforms in Vietnam has contributed to increase in the output. This growth was tempered by reduced solar irradiance in the Philippines and Australia, as well as ongoing turbine repairs in Northern Luzon.

In the first half of 2025, the Philippines' attributable renewable energy generation was recorded at 928 GWh, representing a 9% decrease compared to the previous year. This figure includes a slight decrease in battery output, which contracted to 8 GWh from 10 GWh during the same period in 2024. The surge in battery output can be attributed to the ancillary service procurement agreements (ASPA) made by the National Grid Corporation of the Philippines (NGCP) with Alaminos BESS in June 2024.

However, when excluding battery contributions, the renewable energy output stood at 920 GWh for the first half of 2025, marking an 8% decline from the 1,005 GWh generated last year. This decrease is primarily due to reduced output from Pagudpud Wind, which is currently undergoing repairs after several wind turbines were damaged by Typhoon Marce in late 2024, and lower irradiance levels affecting most of the solar power plants.

International attributable output rose from 1,937GWh in the first half of 2024 to 2,300GWh in the first half of 2025, reflecting a 19% year-over-year increase. This growth can be attributed to several factors: the generation from the Stubbo solar project, which is currently in the testing and commissioning phase; the operation of new plants throughout 2024; strong wind resources in Vietnam; and the increased economic stake of ACEN in partner platforms in Vietnam, leading to additional attributable output.

- The Philippine business contracts its capacity through the Feed-in-Tariff (FIT) program, Retail Electricity Supply (RES) with commercial and industrial customers, and Power Purchase Agreements (PPA) with a limited number of industrial customers. Any supply that is not sold to the contracted customers is sold to the Wholesale Electricity Spot Market (WESM) and is referred to as uncontracted sales. The spot market position reflects the difference between the contracted and uncontracted volumes.
- The Philippines' net selling position for the first quarter stood at 1,122 GWh, an increase of 85% over the same period in 2024. The growth of ACEN's net seller position is due to an increase in merchant capacity following the termination of the baseload and mid-merit contracts with Meralco in November 2024.
- Contracted capacity for the first half of the year stood at 49% for the Philippines, compared to 77% as of 1H 2024. The decline is due to the aforementioned termination of supply contracts with Meralco. ACEN's international portfolio, on the other hand, was 85% contracted, an increase from 83% in the same period last year, driven by an increase in contracted capacity in Australia.
- Construction updates as of June 30, 2025 are:

○ Philippines					
Project Name	Capacity	Location	Completion	Estimated Annual Output (in GWh)	Target Completion
Palauig 2 Solar	300MW	Zambales	91% ¹	453	H1 2026
San Marcelino Solar Phase 3	200MW	San Marcelino, Zambales	7%	298	H1 2027

Financial Highlights:

The Group posted consolidated net income attributable to equity holders of the Parent Company amounting to ₱763.04 million for the first half of 2025 compared to ₱6,293.91 million net income in the same period last year. Consolidated net income (loss) to common shareholders of the Parent Company amounted to (₱200.80 million) and ₱5,330.07 million for the first half of 2025 and 2024, respectively.

The significant year-on-year decline was primarily driven by the non-cash impairment provision made in respect of two of the Vietnam wind projects namely Lac Hoa and Hoa Dong (see discussion below) and a range of operational challenges across various regions. These challenges encompassed poor solar resource availability, depressed WESM prices, and plant availability issues in Northern Luzon. Additionally, the depreciation of plants undergoing testing and commissioning in 2024 further contributed to the decline.

Despite encountering various challenges, we achieved a 9% year-over-year increase in attributable generation output. This strong growth can be attributed to several key factors. The Stubbo solar plant began its testing phase, significantly boosting our output. Additionally, contributions from plants that became operational in 2024 played a crucial role. The increased economic stake in partner platforms in Vietnam also contributed to this upward trend.

In the Philippines, renewable energy production experienced a rise due to the launch of new facilities, despite some wind turbines in Northern Luzon being out of operation or under maintenance. Internationally, renewable energy grew in every market. This growth was fueled by favorable wind and solar conditions as well as the addition of new capacity in regions like Australia, highlighted by new projects such as Stubbo Solar.

WESM prices in the Philippines experienced fluctuations due to various factors in early 2025. The cancellation of planned thermal baseload maintenance in January and February led to price adjustments, while March saw a spike in prices caused by forced outages and increased demand. Although liquefied natural gas plants were derated, hydro generation remained relatively high throughout the quarter due to higher than normal rainfall. From April to June 2025, plants maintained high availability, which created a comfortable supply-demand margin and led to lower spot prices compared to the same period in 2024. These weak spot prices were further influenced by cooler weather and slower demand growth.

Solar plants under testing and commissioning in the first half of 2024—including San Marcelino Solar Phases 1 and 2, Cagayan North Solar, and New England Solar Farm 1—are now being depreciated. Depreciation was not applied to these plants during their testing and commissioning phase in 2024.

No divestment leading to value realization gain was recognized in the first half of 2025.

- 8 -

Overhead expenses, shown as general and administrative costs in the consolidated income statement, increased year-over-year because of development, long-term initiatives, and new operations.

The tables below summarize the consolidated results of operations of the Group's revenues, costs and expenses for the first quarter ended June 30, 2025, and 2024.

Revenues

<i>In thousand Pesos</i>	Apr - Jun		Jan - Jun		Apr - Jun		Jan - Jun	
	2025	2024	2025	2024	Inc (Dec)	%	Inc (Dec)	%
Revenue from sale of electricity	₱7,741,714	₱9,185,050	₱15,294,496	₱18,951,145	(₱1,443,336)	(16)	(₱3,656,649)	(19)
Dividend income	119,466	84,130	234,949	84,130	35,336	42	150,819	179
Rental income	17,504	17,399	35,009	34,798	105	1	211	1
Other revenue	70,182	159,326	151,817	229,068	(89,144)	(56)	(77,251)	(34)
	₱7,948,866	₱9,445,905	₱15,716,271	₱19,299,141	(₱1,497,039)	(16)	(₱3,582,870)	(19)

- **Revenue from the sale of electricity** declined year-over-year due to several factors. Notably, the termination of the Manila Electric Company (MERALCO) power supply agreement (200MW baseload and 110MW mid-merit demand) in November 2024 had a significant impact. With the absence of the Meralco contract, a new trading strategy was adopted with uncontracted third-party supply. This strategy involves instructing a third-party supplier (South Luzon Thermal Energy Corporation or SLTEC) to sell supply directly to the spot market, rather than to ACEN, when spot prices fall below SLTEC's cost of supply. Additionally, lower Wholesale Electricity Spot Market (WESM) prices in the Philippines and reduced output in both the Philippines and Australia due to plant availability issues in Northern Luzon and lower solar irradiance contributed to the decline. However, this decrease in revenue was offset by contribution of Stubbo solar which is in its testing and commissioning phase during the first half of 2025 and the growth in retail customers from the Retail Electricity Supply (RES) business. The RES portfolio expanded to 653MW, marking a 163% increase year-over-year, with more commercial and industrial customers and more contracts linked to Distribution Utility (DU) rates. As of December 31, 2024, the RES portfolio stood at 554MW.
- **Rental income** primarily comes from land leases with third parties.
- **Dividend income** is derived from investments where the Group does not hold voting interest.
- **Other revenue** includes management fees earned by ACEN from its joint ventures and bulk water sales.

Costs and Expenses

<i>In thousand Pesos</i>	Apr - Jun		Jan - Jun		Apr - Jun		Jan - Jun	
	2025	2024	2025	2024	Inc (Dec)	%	Inc (Dec)	%

- 10 -

- The **cost of electricity sales** declined primarily due to the reduction in power purchases following the termination of the MERALCO power supply agreements. This resulted in an excess supply from third parties, significantly lowering the Group's spot market purchases to meet its contracted demand 1.

Additionally, the decline in the cost of purchased power was influenced by solar plants that were under testing and commissioning in the first quarter of 2024, including San Marcelino Solar Phases 1 and 2, Cagayan North Solar, and New England Solar Farm 1. These plants are currently being depreciated, whereas they were not depreciated during their testing and commissioning phase

San Marcelino Solar Phases 1 and 2 and Cagayan North Solar reached commercial operations and started depreciation on September 2024 and October 2024, respectively. New England Solar 1 reached commercial operations in April 2024 and started depreciating in May 2024. Pagudpud Wind remains to be in testing and commissioning and has not begun depreciating as of June 30, 2025.

- **General and administrative expenses** year-over-year increase is driven by growth in overall business and pre-development expenses for business expansion. This include provisions for expected credit losses on investments in redeemable preferred shares and convertible loans and accrued receivables which are investments made by the Group in Vietnam Wind Energy Limited (UPC Vietnam Wind) and UPC-AC Energy Solar Limited (UPC-ACE Solar).

Following the recent finalization of the tariff agreement for the UPC Vietnam Wind project, which comprises the 30 MW Lac Hoa and 30 MW Hoa Dong wind farms, with Vietnam Electricity (EVN) confirming this in June 2025, the joint venture company owning the project, will face challenges in fully servicing its financial obligations to ACEN due to the reduced tariff and subsequent reduced revenues. Consequently, an impairment amounting to ₱3,031.67 million (US\$53.79 million) was recorded in the 2nd quarter of 2025.

The impairment provision is a result of the delayed completion of the UPC Vietnam Wind project, which missed the Feed-in Tariff (FIT) deadline in October 2021. This delay was attributed to pandemic-related restrictions, supply chain disruptions, and execution delays.

Operations commenced on February 20, 2024, for Hoa Dong and March 11, 2024, for Lac Hoa, with the official Commercial Operations Date (COD) reached in December 2023. Since the start of operations, the plants have been operating under a provisional Power Purchase Agreement (PPA) at VND 793/kWh, which is about half of the EVN tariff ceiling of VND 1,587/kWh. This provisional rate is denominated in VND and does not have USD indexation, unlike the assumed FIT in the investment case of US\$0.085/kWh.

The Group began recognizing partial impairment in 2022, considering the impact on future project cash flow. With the tariff documentation nearing completion and the signing and power purchase agreement (PPA) execution expected in Q3 2025, the final PPA tariff is confirmed at VND 1,578.9/kWh, or 99.49% of the EVN ceiling. This rate will be applied retroactively to the start of operations.

Equity in Net Income of Associates and Joint Venture

<i>In thousand Pesos</i>	Apr - Jun		Jan - Jun		Apr - Jun		Jan - Jun	
	2025	2024	2025	2024	Inc (Dec)	%	Inc (Dec)	%
Netherlands	₱280,955	₱279,868	₱554,564	₱557,883	₱1,087	–	(₱3,319)	(1)
Philippines	151,651	(4,937)	810,937	287,660	156,588	(3172)	523,277	182
USA	(200,012)	(165,279)	(228,432)	(218,695)	(34,733)	21	(9,737)	4
Vietnam	6,709	(10,701)	372,676	(10,813)	17,410	(163)	383,489	(3547)
Indonesia	393	37,382	(7,061)	(33,845)	(36,989)	(99)	26,784	79
Others	(27,401)	50,757	(93,842)	(39,798)	(78,158)	(154)	(54,044)	136
	₱212,295	₱187,090	₱1,408,842	₱542,392	₱25,205	13	₱866,450	160

Equity in net income of associates and joint ventures increased mainly due to several factors:

- **Philippines** - the increase reflects the impact of the high wind season and favorable wind conditions in the first half of 2025. This also includes the share in the net income from Ingrid Power Holdings, Inc., a diesel power plant that generated income from the reserve market starting June 2024.
- **Vietnam** - The increase is attributed to the high wind season and favorable wind conditions in the first half of 2025. The increase is also driven by the additional interest acquired by the Group in the fourth quarter of 2024 in wind and solar power plants. The appreciation of USD versus VND resulted in higher foreign exchange losses. Project finance for selected Vietnam projects is in USD, while the functional currency of these projects is VND. Consequently, the forex losses associated with the entire value of the project finance are booked through the income statements of the relevant projects but will be serviced over time since the tariffs of these projects are USD-linked
- **India** - uplift from the increase in generation and the completion of Masaya Solar with lower share in pre-operating losses as activities ramp up for projects under construction and pre-development.
- **Indonesia** - the lower share in pre-operating losses reflects the impact of the full divestment in Sidrap Wind in April 2024. The remaining investment in Salak-Darajat is included under the Netherlands and Indonesia line items. The Group's investment in Salak-Darajat is via a layer company that is a Netherlands company.
- **USA and other regions** – the higher share in pre-operating losses is due to the ramping up of activities for projects under construction or refurbishment.

- **Interest and other finance income from:**
 - **Cash in Banks and Short-term Deposits** - The decrease in cash in banks and short-term deposits is due to the deployment of funds raised during financing activities. These funds were deployed to projects under construction.
 - **Accounts and Notes Receivable** - The increase in accounts and notes receivable is primarily due to interest earned on the loan extended to projects with partners following the growth of the Group's portfolio.
 - **Investment in Redeemable Preferred Shares and Convertible Loans** - The decrease in investment in redeemable preferred shares and convertible loans follows a change in the features of investments in India, which now require the declaration of dividends prior to income recognition. Previously, income was recognized without the need for a dividend declaration. However, this decrease was offset by higher interest recognized on existing redeemable preferred shares that have a compounding feature, wherein interest earned is added back to the principal, resulting in a larger base earning interest.
- **Interest and Other Finance Charges** - The increase in interest and other finance charges is primarily due to the drawdown of a syndicated green term loan facility by ACEN Renewables International Pte. Ltd. (ACRI), a wholly owned subsidiary of the Group. This facility, secured from a consortium of international financial institutions, supports the Group's ongoing renewable energy expansion in the Asia-Pacific region. The corresponding increase in interest expense reflects the impact of this drawdown on the Group's financing activities during the period.
- **Other Income** - The decrease compared to 2024, mainly due to the absence of significant one-off transactions recorded in the previous year, such as the recognized gain of US\$16.40 million (₱962.90 million) from the divestment of Sidrap Wind and non-recurring gains of US\$6.97 million (₱389.18 million) from the early extinguishment of a convertible loan with TBC.

- 13 -

Benefit from income tax

<i>In thousand Pesos</i>	Apr - Jun		Jan - Jun		Apr - Jun		Jan - Jun	
	2025	2024	2025	2024	Inc (Dec)	%	Inc (Dec)	%
Current	₱153,022	₱822,199	₱217,444	₱1,070,030	(₱669,177)	(81)	(₱852,586)	(80)
Deferred income tax	(547,956)	32,866	(710,122)	(218,488)	(580,822)	(1,767)	(491,634)	225
	(₱394,934)	₱855,065	(₱492,678)	₱851,542	(₱1,249,999)	(146)	(₱1,344,220)	(158)

- The decrease in **provision for income tax - current** is due to lower taxable income for the period compared to last year.
- **Deferred income tax benefit** is mainly driven by the Group's deferred tax asset from the net operating loss carry over (NOLCO), offset by deferred tax liability recognized from capitalized costs. Deferred tax assets recognize the benefit from NOLCO that can be deducted against future regular corporate income tax. This is only recognized to the extent that NOLCO can be applied against future taxable income.

The table below bridges consolidated statutory earnings before interest, taxes, depreciation, and amortization (EBITDA) to (i) attributable EBITDA and then (ii) core attributable EBITDA.

Other noncurrent assets	15,641,056	13,050,739	2,590,317	20
Total Noncurrent Assets	281,882,135	270,410,122	11,472,013	4
TOTAL ASSETS	₱339,401,841	₱329,542,231	₱9,859,610	3

- The decrease in **cash and cash equivalents** is due to the continued deployment of funds raised from financing activities and internally generated cash to projects under construction.
- **Accounts and notes receivable** increased slightly during the period, mainly due to the recognition of additional receivables from regular business activities
- **Fuel and spare parts** increased as a result of purchases of bunker fuels.
- **Financial assets at FVTPL** decreased following the maturity of placements for UITF investments through local banks. Funds available from financing activities, while not deployed, are invested in UITFs. For the six-month period ended June 30, 2025, the fair value loss on the UITF investment amounted to ₱50.23 million.
- The **current portion of input VAT** decreased due to lower purchases for ongoing renewable projects.
- **Creditable withholding tax** increased with the rise in revenues from January to June 2025.
- **Other current assets** increased primarily due to the rise in prepayments for operating expenses in the Philippines and Australia.

- 15 -

- **Investments in associates and joint ventures** increased mainly from additional investments in the following:

						<i>Amount in thousands</i>	
						June 30, 2025	December 31, 2024
Investee Company	Domicile	Project	Project Location	Technology	Capacity	(Unaudited)	(Audited)
PT Sidrap 2	Indonesia	Sidrap 2	Indonesia	Wind	34	₱373,563	₱75,752
PT Sukabumi	Indonesia	Sukabumi	Indonesia	Wind	74	240,929	88,460
UPC Power	USA	Stockyard & Chestnut Flats	USA	Wind		102,758	
					148		2,575,040
Paivatar	Philippines	–	Philippines	–	TBD	91,169	307,903
PT Lombok	Indonesia	Lombok	Indonesia	Wind	39	54,760	177,062
Monsoon Wind	Netherlands	Monsoon	Laos	Wind	146	16,507	82,963
BrightNight	Netherlands	BN	India	Hybrid Solar-		–	
		Maharashtra		Wind	80		3,559,287
BIMEH	Vietnam	–	Vietnam	Wind	TBD	–	5,534,296
RWEI*	Philippines	Real Wind	Philippines	Wind	TBD	–	568,719
PhilWind	Philippines	Capa Wind 2	Philippines	Wind	70	–	504,460
NLR	Philippines	Capa Wind 2	Philippines	Wind	70	–	495,400
URH	Netherlands	–	Netherlands	–	TBD	–	151,018
Others						92,669	61,114
Total						₱972,355	₱14,181,474

*RWEI was subsequently acquired as a subsidiary in August 2024

- **Investments in redeemable preferred shares and convertible loans** are investments made in International projects (excluding Australia) in the form of redeemable preferred shares and convertible loans.
- **Noncurrent financial assets at FVTPL** pertains to Compulsorily Convertible Debentures (CCDs) from Masaya Solar. Masaya Solar has constructed the 420MW solar farm in the Central Indian state of Madhya Pradesh. The increase is mainly from the fair valuation of the instrument using a discount rate of 12.65%. For the six-month period ended June 30, 2025, the fair value gain on Masaya Solar's CCDs amounted to ₱8.04 million (US\$ 0.15 million).
- **Noncurrent financial assets at FVOCI** are largely investments in UPC-ACE Solar, BrightNight, PT Puri Prakarsa Batam and IBV ACEN Renewables Asia Pte, and also include golf club shares and listed equity instruments. This also includes the AREIT common shares obtained from the sale and leaseback transaction with AREIT and reclassified redeemable preferred shares from investments in India (previously classified as investments in redeemable preferred shares and convertible loans). AREIT shares are listed equity instruments where the fair value is based on the closing price as of December 31, 2024. Investments in UPC-ACE Solar's Redeemable Preference Share Class A and B are valued using a discount rate of 12.65%. For the six-month period ended June 30, 2025, the unrealized fair value gain on equity instruments at FVOCI recognized in the statements of comprehensive income amounted to ₱731.19 million.

- 16 -

- **Plant, property and equipment's** increase is related to capital expenditures on the following projects:

Project	Capacity (MW)	Location	% Completion	
			June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Pangasinan Solar	60	Pangasinan, Philippines	100%	99.5%
Palauig 2 Solar	300	Zambales, Philippines	91%*	84%*
Quezon North Wind (1 and 2)	553	Real and Mauban, Quezon, Philippines	11%	-
San Marcelino Solar (Phase 3)	200	Zambales, Philippines	7%	5%
Stubbo Solar	520	Central Western Tablelands, New South Wales, Australia	99%	91%
New England BESS	200	Uralla, New South Wales, Australia	53%	8%

*Excluding transmission line with 58.48 % completion of 55% as of June 30, 2025 and December 31, 2024

- The movement of **right-of-use assets** reflects the Group's utilization of its leased assets
- **Receivables -net of current portion** decreased primarily due to recognition of additional allowance for expected credit losses from receivables due to the reduced tariff and subsequent reduced revenues following the recent finalization of the tariff agreement for the UPC Vietnam Wind project namely Lac Hoa and Hoa Dong.
- **Goodwill & other intangible assets** decline represents the amortization of leasehold and water rights and other intangible assets.
- Majority of the balance of **Deferred tax assets** came from the recognition of accrued expenses, net operating losses carry over (NOLCO), minimum corporate income tax (MCIT), and lease liabilities.
- **Input VAT noncurrent** increased following the ramp up of business that resulted in higher purchases of assets and services. This is offset by reclassification of input VAT to current following the assessment by management that this can be applied against output VAT due within the next 12 months. Output VAT is mainly from sale of electricity billed to third party customers.
- **Other noncurrent assets** increased mainly from partial payment to and owners and services providers related to the acquisition of various property for future renewable projects in the Philippines.

Total Equity	154,336,813	157,443,200	(3,106,387)	(2)
TOTAL LIABILITIES AND EQUITY	₱339,401,841	₱329,542,231	₱9,859,610	3

- **Accounts payable and other current liabilities** decreased during the period, primarily due to the accrual of additional obligations related to project development activities and timing of payments to suppliers and service providers.
- **Short-term loans** are outstanding loans from local banks. These were availed to bridge working capital requirements of the parent company.
- **Current portion of long-term loans** decreased mainly due to the payment timing schedule and loan payments offset by the current portion of the additional loan availments.

- 18 -

- **Current portion of lease liabilities** movement is mainly due to the payment timing schedule of leased assets.
- The decrease in **income and withholding taxes payable** was mainly due to withholding taxes payable from various purchases in the Philippines.
- **Notes payable** pertains to the ₱10,000.00 million 5-year Green Bonds by ACEN and the US\$400.0 million U.S. dollar-denominated senior guaranteed undated fixed-for-life (non-deferrable) Green Bonds (the Bonds) issued and listed in SGX-ST.
- **Long-term loans - net of current portion**, increased due to the additional drawdowns from loan facilities by ACRI amounting to ₱6,211.94 million (US\$109.81 million) to fund projects and for working capital requirements, by ACEN Australia of ₱14,385.87 million (AU\$413.15 million) to refinance NESF and to fund CAPEX requirements of other existing projects, and by ACEN International amounting to ₱2,244.20 million to fund the development of new projects.
- **Lease Liabilities - net of current portion** decreased mainly due to lease payments during the period.
- Majority of the balance of **deferred income tax liabilities** came from the recognition of unrealized foreign exchange gains and right-of-use assets of the Group as at period ended.
- **Other noncurrent liabilities** include contract liabilities and asset retirement obligations related to operating renewable power plant projects.
- The decrease in **Other Equity Reserves** was mainly due to the acquisition of 40% ownership interest in ISLASOL.
- The movement in **unrealized FV loss on equity instruments at FVOCI** is mainly attributable to the revaluation gain of AREIT common shares.
- **Unrealized fair value gain (loss) on derivative instruments** designated as hedges increased due to the movement of the derivative related to Long Term Energy Service Agreements in Australia.
- **Remeasurement loss on defined benefit plan** is mainly from current service costs.
- The significant increase in **accumulated share in other comprehensive income of associates and joint ventures** came from the other comprehensive income share in cumulative transaction adjustments of associates and joint ventures.
- **Retained earnings** decreased from the resulting net income earned for the period amounting to ₱763.04 million, net of any dividends declared from common and redeemable preferred shareholders, amounting to ₱2,947.71 million attributable to the Parent Company.
- **Treasury shares** had no movement during the period.
- **Non-controlling interests** decreased during the period primarily due to the redemption of shares and subsequent acquisition by the Parent Company of the remaining equity interest in Negros Island Solar Power, Inc. (“Islasol”) from Asian Energy Impact Trust Plc (“AEIT”). The transaction, which involved the purchase of 7,371 redeemable preferred shares, resulted in the Parent Company obtaining full ownership of Islasol, thereby eliminating the related non-controlling interest.

Key Performance Indicators

The key performance indicators of ACEN and its majority owned subsidiaries, as consolidated, are the following:

Key Performance Indicator	Formula	30-Jun-25	31-Dec-24	Increase (Decrease)	
				Amount	%
Liquidity Ratios					
Current Ratio	Current assets	1.83	1.99	(0.16)	(8)
	Current liabilities				
Acid test ratio	Cash + Short-term investments + Accounts receivables + Other liquid assets	1.64	1.81	(0.17)	(9)
	Current liabilities				
Solvency Ratios					
Debt/Equity ratio	Total liabilities	1.20	1.09	0.11	10
	Total equity				
Asset-to-equity ratio	Total assets	2.20	2.09	0.11	5
	Total equity				
Interest Coverage Ratio	Statutory Earnings before interest & tax (EBIT) ⁽¹⁾	1.64	2.27	(0.63)	(28)
	Interest expense ⁽²⁾				
Net bank Debt to Equity ratio	Short & long-term loans - Cash & Cash Equivalents	0.79	0.69	0.10	14
	Total Equity				
Profitability Ratios					
Return on Equity*	Net income after tax attributable to equity holders of the Parent Company	2.61	6.82	(4.21)	(62)
	Average total stockholders' equity attributable to equity holders of the Parent Company				
Return on Common Equity*	Net income after tax attributable to equity holders of the Parent Company (Common)	1.56	6.16	(4.6)	(75)
	Average Common equity attributable to equity holders of the Parent Company (Common)				
Return on assets*	Net income after taxes	1.26	3.29	(2.03)	(62)
	Average total assets				
Asset Turnover*	Revenues	10.08	12.14	(2.06)	(17)
	Average total assets				

*computed on trailing 12-months revenue, net income after tax attributable to equity holders of the parent company and net income after tax attributable to equity holders of the parent company (common) for June 30, 2025 profitability ratios

(1) Statutory EBIT is Statutory EBITDA less depreciation and amortization expense

(2) Cash interest expense is gross of capitalized borrowing cost of ₱1,364.24 million and ₱2,634.81 million for the six-month period ended June 30, 2025 and the year-ended December 31, 2024, respectively.

Current ratio & Acid test ratio

Current ratio & acid test ratio decreased due to lower liquid assets, such as cash and cash equivalents at period end, alongside the increase in current liabilities, primarily from additional availments of short-term loans.

Debt/Equity ratio & Asset-to-equity ratio

D/E ratio slightly increased with additional short-term and long-term loan availments and the decrease in net income for the period. Asset-to-equity ratio also went up as the increase in total assets slightly outpaced the increase in equity.

Interest coverage ratio

Higher interest expense following additional loan availments to fund the ramp up of renewable projects yielded a lower interest coverage ratio for the current period.

Net bank debt to equity ratio

Net D/E ratio increased from year-end 2024 due to additional availments of short-term and long-term loans.

Asset turnover

Continued ramp up of capacity with sizeable renewable projects under construction results to higher increase in average total assets compared to renewable projects that are selling power (i.e., movement in average total assets is faster than movement in revenue from new capacity in 2025). This resulted in lower asset turnover year-on-year.

Material events and uncertainties

- There were no events that triggered direct or contingent financial obligations that were material to the Group. There were no contingent assets or contingent liabilities since the last annual financial reporting.
- There were no material off-balance sheet transactions, arrangements, obligations and other relationships of the Parent Company with unconsolidated entities or other persons created during the financial reporting period.
- There were no material events that had occurred subsequent to the financial reporting close except for the events after the reporting period disclosed in Note 29 of the unaudited Interim Condensed Consolidated Financial Statements.
- ACEN has material commitments to invest in capital expenditure projects under construction and committed.
- Funding for new technology investments in the Philippines. Refer to Notes to Consolidated Financial Statements for details.
- Any known trends, events, or uncertainties that have had or that were reasonably expected to have material favorable or unfavorable impact on net revenues/income from continuing operations
 - The results of operations of ACEN and its subsidiaries depend to a significant extent, on the performance of the Philippine economy.
 - The current highly competitive environment and operation of priority-dispatch variable renewable energy resulted in lower demand for electricity and have driven market prices of electricity downward.

- 21 -

- Movements in the WESM prices could have a significant favorable or unfavorable impact on the Group's financial results.
- Any known trends or any known demands, commitments, events, or uncertainties that will result in or that are reasonably likely to result in the registrant's liquidity increasing or decreasing in any material way
 - The Group is developing a line-up of renewable energy projects as part of its growth aspiration. The capital expenditures shall be funded by a combination of equity and debt.
- There were no significant elements of income or loss that did not arise from continuing operations that had a material effect on the financial condition or results of operations.
- There were no operations subject to seasonality and cyclicalities except for the operation of wind farms. The wind regime is high during the northeast monsoon ("amihan") season in the first and fourth quarter when wind turbines generate more power to be supplied to the grid. The generation drops in the second and third quarter due to low wind regime brought about by the southwest monsoon ("habagat").

ANNEX C**ACEN CORPORATION** (the “Company”)**2nd QUARTER**

1. April 7, 2025 – Uratex expands renewables footprint, earns “Powered by Renewable Energy” badge from ACEN RES
2. April 14, 2025 – Top 100 ACEN RPS B Stockholders as of 31 March 2025
3. April 14, 2025- Top 100 ACEN RPS A Stockholders as of 31 March 2025
4. April 14, 2025 – Top 100 ACEN Common Stockholders as of 31 March 2025
5. April 14, 2025 – Annual Report for the year ended 31 December 2024
6. April 15, 2025 – Notice of Q1 2025 Analysts’ and Investors’ Briefing on 8 May 2025
7. April 15, 2025 – Public Ownership Report as of 31 March 2025
8. April 15, 2025 – Press release: ACEN Australia secures AUD750 million financing to support growth of Australian clean energy portfolio
9. April 23, 2025 – Results of the 2025 Annual or Special Stockholders’ Meeting
10. April 23, 2025 – Results of the 2025 Organizational Meeting of the Board of Directors
11. April 23, 2025 – ACEN CORPORATION’s Stock Rights Offering
12. April 23, 2025 – Amendments to Articles of Incorporation
13. April 29, 2025 – Results of the Annual Stockholders’ Meeting of ACEN CORPORATION
14. April 29, 2025 – Submission of SEC Form 23-A in connection with Mr. David John Nicol’s election as Director of the Corporation at the Annual Stockholders’ Meeting held on 23 April 2025
15. April 30, 2025 - Submission of SEC Form 23-A in connection with Mr. Christopher Paul Beshouri’s election as Director of the Corporation at the Annual Stockholders’ Meeting held on 23 April 2025
16. May 2, 2025 – Clarification of the news article in The Manila Times (Online Edition) on 2 May 2025 entitled, “ACEN on lookout for offshore wind partners”
17. May 5, 2025 – Declaration of Cash Dividends on Outstanding Series A Preferred Shares (ACENA)
18. May 5, 2025 - Declaration of Cash Dividends on Outstanding Series A Preferred Shares (ACENB)
19. May 7, 2025 – Press release: Mitsubishi and DGA Join ACEN, GenZero, and Keppel to Drive Energy Transition with Transition Credits
20. May 8, 2025 – Press release: ACEN posts Q1 2025 net income of Php1.95 billion
21. May 8, 2025 – Quarterly Report dated 31 March 2025
22. May 9, 2025 – Term Loan Facility
23. May 9, 2025 – Press release: REZ access rights advance ACEN Australia’s diversified clean energy portfolio growth
24. May 15, 2025 – Matters approved at the regular meeting held on 14 May 2025:
 - a. Health and Safety Management System Framework for the ACEN Group.
 - b. 2024 Business Separation and Unbundling Plan (and accompanying report), as reviewed and endorsed by the Audit Committee, for submission to the Energy Regulatory Commission.
25. May 19, 2025 – Press release: The St. Francis Shangri-La Place transitions to renewable energy through Ayala’s ACEN RES
26. May 22, 2025 – Integrated Annual Corporate Governance Report for the year 2024
27. May 23, 2025 – Giga Ace 4, Inc. Payment of Penalty
28. May 23, 2025 – Updating of e-mail address and website
29. May 27, 2025 – 2025 General Information Sheet
30. May 28, 2025 – Annual Certification of the Department of Energy
31. May 29, 2025 – Press release: ACEN partners with CIP to develop the Philippines’ First Large-Scale Offshore Wind Project

- 1 -

32. May 29, 2025 – ACEN partners with CIP to develop the Philippines’ First Large-Scale Offshore Wind Project
33. May 30, 2025 – ACEN submits request for SEC Confirmation of Exempt Transaction and PSE Listing Application for an up to Php30bn Stock Rights Offering
34. May 30, 2025 – Press release: Mapua Malayan Colleges Laguna powers up with 100% renewable energy through ACEN RES partnership
35. June 4, 2025 – Press release: ACEN strengthens renewable energy footprint in North Luzon with 133 MW Cagayan North Solar
36. June 4, 2025 - Matters approved at the regular meeting held on 4 June 2025:
 - a. Declaration and payment of dividends on common shares.
 - b. New credit facilities with Citibank N.A. (Philippine Branch) and Standard Chartered Bank for working capital and general corporate requirements.
 - c. Amendment of the Use of Proceeds of the Company’s proposed Stock Rights Offering, from “to refinance short term borrowings drawn to fund current year capex and the balance to be utilized for upcoming capex requirements to support the Company’s growth plans” to “to finance primarily local and some international renewable energy or battery storage systems projects, including the refinancing of short-term borrowings earlier drawn to fund such projects, and other general corporate requirements.
37. June 5, 2025 – Declaration and Payment of Cash Dividends on Outstanding Common Shares
38. June 17, 2025 – Executive Committee’s approval of the sale of diesel plant companies to AC Energy and Infrastructure Corporation
39. June 18, 2025 – Clarification of the news articles in BusinessWorld (Online Edition) on 17 June 2025 entitled, “ACEN unit secures approval for 943 MW wind project in Australia
40. June 24, 2025 – Acquisition of 29,500 Common Shares of CI GMF II Camarines Offshore Wind Energy Corporation
41. June 25, 2025 – Press release: ACEN and UPC Renewables break ground on over 500 MW of new renewables energy projects in India
